Preface

The *United Nations Disarmament Yearbook* is now in its forty-sixth year of publication. Part I presents the official texts of the 56 resolutions and 4 decisions related to disarmament, arms control and international security that were debated in the First Committee and forwarded to the General Assembly for adoption at its seventy-sixth session.

Part I is issued as a separate publication to provide early access to the resolutions and decisions, each presented with key information: relevant agenda items, main sponsors and co-sponsors, vote counts, including voting patterns in the First Committee and the General Assembly, adoption and meeting number dates and draft resolution numbers.

A *Quick view by cluster* gives the reader an easy handle (using the First Committee's "cluster" arrangement of agenda items) on resolution numbers, titles and votes in the First Committee and in the Assembly.

We hope that Part I furnishes the reader with a handy, consolidated reference book on multilateral disarmament, in print and electronic form.

Part II of the Yearbook will contain main multilateral issues under consideration, including their trends, summaries of First Committee and General Assembly actions taken on resolutions and a convenient issue-oriented timeline. Part II is forthcoming in October 2022.

The General Assembly,

Recalling the Declaration of the Indian Ocean as a Zone of Peace, contained in its resolution [2832 \(XXVI\)](#) of 16 December 1971, and recalling also its resolutions [54/47](#) of 1 December 1999, [56/16](#) of 29 November 2001, [58/29](#) of 8 December 2003, [60/48](#) of 8 December 2005, [62/14](#) of 5 December 2007, [64/23](#) of 2 December 2009, [66/22](#) of 2 December 2011, [68/24](#) of 5 December 2013, [70/22](#) of 7 December 2015, [72/21](#) of 4 December 2017 and [74/25](#) of 12 December 2019 and other relevant resolutions,

Recalling also the report of the Meeting of the Littoral and Hinterland States of the Indian Ocean, held in New York from 2 to 13 July 1979,¹

Recalling further paragraph 102 of the Final Document of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held in Kuala Lumpur on 24 and 25 February 2003,² in which it was noted, inter alia, that the Chair of the Ad Hoc Committee on the Indian Ocean would continue his informal consultations on the future work of the Committee,

Emphasizing the need to foster consensual approaches that are conducive to the pursuit of such endeavours,

Noting the initiatives taken by countries of the region to promote cooperation, in particular economic cooperation, in the Indian Ocean area and the possible contribution of such initiatives to overall objectives of a zone of peace,

Convinced that the participation of all permanent members of the Security Council and the major maritime users of the Indian Ocean in the work of the Ad Hoc Committee is important and would assist the progress of a mutually beneficial dialogue to develop conditions of peace, security and stability in the Indian Ocean region,

¹ *Official Records of the General Assembly, Thirty-fourth Session, Supplement No. 45 and corrigendum (A/34/45 and A/34/45/Corr.1).*

² [A/57/759-S/2003/332](#), annex I.

Considering that greater efforts and more time are required to develop a focused discussion on practical measures to ensure conditions of peace, security and stability in the Indian Ocean region,

Having considered the report of the Ad Hoc Committee,³

Text

The General Assembly,

Recalling its resolutions 43/78 H of 7 December 1988, 53/70 of 4 December 1998, 54/49 of 1 December 1999, 55/28 of 20 November 2000, 56/19 of 29 November 2001, 57/53 of 22 November 2002, 58/32 of 8 December 2003, 59/61 of 3 December 2004, 60/45 of 8 December 2005, 61/54 of 6 December 2006, 62/17 of 5 December 2007, 63/37 of 2 December 2008, 64/25 of 2 December 2009, 65/41 of 8 December 2010, 66/24 of 2 December 2011, 67/27 of 3 December 2012, 68/243 of 27 December 2013, 69/28 of 2 December 2014, 70/237 of 23 December 2015, 71/28 of 5 December 2016, 73/27 of 5 December 2018, 73/266 of 22 December 2018, 74/28 and 74/29 of 12 December 2019, 75/32 of 7 December 2020 and 75/240 of 31 December 2020, as well as its decisions 72/512 of 4 December 2017 and 75/564 of 28 April 2021,

Stressing that it is in the interest of all States to promote the use of information and communications technologies for peaceful purposes and to prevent conflicts arising from the use of information and communications technologies,

Recalling that a number of States are developing information and communications technology capabilities for military purposes and that the use of information and communications technologies in future conflicts between States is becoming more likely,

Noting that considerable progress has been achieved in developing and applying the latest information technologies and means of telecommunication,

Expressing concern that these technologies and means can potentially be used for purposes that are inconsistent with the objectives of maintaining international stability and security and may adversely affect the integrity of the infrastructure of States, to the detriment of their security in both civil and military fields,

Expressing concern also about malicious information and communications technology activities aimed at critical infrastructure and critical information infrastructure facilities supporting essential services to the public,

Considering that it is necessary to prevent the use of information resources or technologies for criminal or terrorist purposes,

Underlining the importance of respect for human rights and fundamental freedoms in the use of information and communications technologies,

Noting that capacity-building is essential for cooperation of States and confidence-building in the field of information and communications technology security,

Reaffirming that voluntary, non-binding norms of responsible State behaviour can reduce risks to international peace, security and stability, and do not seek to limit or prohibit action that is otherwise consistent with international law but nonetheless to set standards for responsible State behaviour, while also reaffirming that, given the unique attributes of information and communications technologies, additional norms could be developed over time and, separately, noting the possibility of future elaboration of additional binding obligations, if appropriate,

Reaffirming also that the United Nations should continue to play a leading role in promoting dialogue on the use of information and communications technologies by States,

Recognizing the importance of the efforts made in this direction by the Group of Governmental Experts and the Open-ended Working Group on Developments in the Field of Information and Telecommunications in the Context of International Security,

Guided by the 2010, 2013 and 2015 reports of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security,¹

4. *Supports* the open-ended working group on security of and in the use of information and communications technologies 2021–2025, and acknowledges its mandate in accordance with General Assembly resolution [75/240](#);

5. *Underlines* further that the open-ended working group 2021–2025 should take into account the outcomes of the previous Open-ended Working Group and the Groups of Governmental Experts and add to the efforts undertaken by them, and should be consensus-based and results-oriented;

76/21 Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons

Text

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to humankind and to the survival of civilization,

Noting that the renewed interest in nuclear disarmament should be translated into concrete actions for the achievement of general and complete disarmament under effective international control,

Convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, the first special session devoted to disarmament,¹ in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

¹ Resolution S-10/2.

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution [35/46](#) of 3 December 1980, in which it is stated, *inter alia*, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,⁶ with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, held in Kuala Lumpur on 24 and 25 February 2003,⁷ which was reiterated at the Seventeenth Conference of Heads of State or Government of Non-Aligned Countries, held on Margarita Island, Bolivarian Republic of Venezuela, from 13 to 18 September 2016, as well as the relevant recommendations of the Organization of Islamic Cooperation,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

² The Committee on Disarmament was redesignated the Conference on Disarmament as from 7 February 1984.

Taking note of Security Council resolution 984 (1995) of 11 April 1995 and the views expressed on it,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994, 50/68 of 12 December 1995, 51/43 of 10 December 1996, 52/36 of 9 December 1997, 53/75 of 4 December 1998, 54/52 of 1 December 1999, 55/31 of 20 November 2000, 56/22 of 29 November 2001, 57/56 of 22 November 2002, 58/35 of 8 December 2003, 59/64 of 3 December 2004, 60/53 of 8 December 2005, 61/57 of 6 December 2006, 62/19 of 5 December 2007, 63/39 of 2 December 2008, 64/27 of 2 December 2009, 65/43 of 8 December 2010, 66/26 of 2 December 2011, 67/29 of 3 December 2012, 68/28 of 5 December 2013, 69/30 of 2 December 2014, 70/25 of 7 December 2015, 71/30 of 5 December 2016, 72/25 of 4 December 2017, 73/29 of 5 December 2018, 74/31 of 12 December 2019 and 75/34 of 7 December 2020,

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be further explored in order to overcome the difficulties;

5. *Also recommends* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international agreements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its seventy-seventh session the item entitled “Conclusion of effective international arrangements

to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons”.

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,² in which it is stated that, in order to prevent an arms race in outer space, further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, the most recent of which is resolution [75/35](#) of 7 December 2020, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued

the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space, and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to reexamination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,³

Emphasizing the mutually complementary nature of bilateral and multilateral efforts for the prevention of an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling, in this context, its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Conference on Disarmament and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

Noting with satisfaction the constructive, structured and focused debate on the prevention of an arms race in outer space at the Conference on Disarmament each year from 2009 to 2021,

Noting the introduction by China and the Russian Federation at the Conference on Disarmament of the draft treaty on the prevention of the

placement of weapons in outer space and of the threat or use of force against outer space objects in 2008 and the submission of its updated version in 2014,⁴

Recalling the comprehensive and substantive discussions of the Group of Governmental Experts that was convened in 2018 and 2019 pursuant to its resolution [72/250](#) of 24 December 2017,

Taking note of the decision of the Conference on Disarmament to establish for its 2009 session a working group to discuss, substantially, without limitation, all issues related to the prevention of an arms race in outer space, and the decision to establish for its 2018 session a subsidiary body on the prevention of an arms race in outer space,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. *Emphasizes* the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. *Reiterates* that the Conference on Disarmament, as the sole multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. *Invites* the Conference on Disarmament to establish a working group under its agenda item entitled “Prevention of an arms race in outer space” as early as possible;

8. *Urges* States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

76/23 No first placement of weapons in outer space

Text

The General Assembly,

Recalling its resolutions [69/32](#) of 2 December 2014, [70/27](#) of 7 December 2015, [71/32](#) of 5 December 2016, [72/27](#) of 4 December 2017, [73/31](#) of 5 December 2018 and [74/33](#) of 12 December 2019, [75/37](#) of 7 December 2020 and its resolutions [45/55](#) B of 4 December 1990 and [48/74](#) B of 16 December 1993, which, inter alia, confirm the importance of transparency and confidence-building measures as a means conducive to ensuring the attainment of the objective of preventing an arms race in outer space,

Recognizing the common interest of all humankind in the exploration and use of outer space for peaceful purposes,

Seriously concerned about the possibility of an arms race in outer space and of outer space turning into an arena for military confrontation, and bearing in mind the importance of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Conscious that the prevention of an arms race in outer space would avert a grave danger to international peace and security,

Reaffirming that practical measures should be examined and taken in the search for agreements to prevent an arms race in outer space in a common effort towards a community of shared future for humankind,

Emphasizing the paramount importance of strict compliance with the existing legal regime providing for the peaceful use of outer space,

Reaffirming its recognition that the legal regime applicable to outer space by itself does not guarantee prevention of an arms race in outer space and that there is a need to consolidate and reinforce that regime,

Convinced that such measures could critically improve conditions for efficiently addressing the threat of an arms race in outer space, including the placement of weapons in outer space,

Welcoming, in this regard, the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008,² and the submission of its updated version in 2014,³

¹ United Nations, *Treaty Series*, vol. 610, No. 8843.

² See [CD/1839](#).

³ See [CD/1985](#).

Considering that transparency and confidence-building measures in outer space activities are an integral part of the draft treaty referred to above,

Stressing the importance of the political statements made by a number of States⁴ that they would not be the first to place weapons in outer space,

1. *Reaffirms* the importance and urgency of the objective of preventing an arms race in outer space and the willingness of States to contribute to reaching this common goal;

2. *Reiterates* that the Conference on Disarmament, as the single multilateral negotiating forum on this subject,⁵ has the primary role in the negotiation of a multilateral agreement, or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

3. *Urges* an early commencement of substantive work based on the updated draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008, under the agenda item entitled “Prevention of an arms race in outer space”;

4. *Stresses* that, while such an agreement is not yet concluded, other measures may contribute to ensuring that weapons are not placed in outer space;

5. *Encourages* all States, especially spacefaring nations, to consider the possibility of upholding, as appropriate, a political commitment not to be the first to place weapons in outer space;

6. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “Prevention of an arms race in outer space”, the sub-item entitled “No first placement of weapons in outer space”.

76/25 Ethical imperatives for a nuclear-weapon-free world

Text

The General Assembly,

Recalling its resolution 75/73 of 7 December 2020, adopted on the occasion of the seventy-fifth anniversary of the United Nations, which was established to save succeeding generations from the untold suffering of the scourge of war, and its resolution 74/47 of 12 December 2019,

Recalling also that the United Nations emerged at the time of the immense trail of death and destruction resulting from the Second World War, over 75 years ago,

Recalling further the noble principles of the Charter of the United Nations, which enjoin the international community, individually and collectively, to spare no effort in promoting the ethical imperative of “in larger freedom”, so that all peoples may enjoy freedom from want, freedom from fear and the freedom to live in dignity,

Convinced that, given the catastrophic humanitarian consequences and risks associated with a nuclear weapon detonation, Member States have long envisaged nuclear disarmament and nuclear non-proliferation as urgent and interlinked ethical imperatives in achieving the objectives of the Charter, which is reflected in the first resolution, resolution 1 (I), adopted by the General Assembly on 24 January 1946, aimed at the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction,

Acknowledging, in this connection, the ethical imperatives outlined in the provisions of its resolutions and reports and those of other related international initiatives on the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, including the declaration that the use of nuclear weapons would cause indiscriminate suffering and as such is a violation of the Charter and the laws of humanity and international law,¹ the condemnation of nuclear war as contrary to human conscience and a violation of the fundamental right to life,² the threat to the very survival of humankind posed by the existence of nuclear weapons,³ the detrimental environmental effects of the use of nuclear weapons,⁴ and the disquiet that was expressed

² See resolution 38/75.

³ See resolution S-10/2.

at the continued spending on the development and maintenance of nuclear arsenals,⁵

Acknowledging also the preamble to and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons⁶ and the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons,⁷ in which the Court unanimously concluded that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Acknowledging further the United Nations Millennium Declaration,⁸ in which Heads of State and Government resolved to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving that aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Concerned that, despite the long-standing recognition that it has accorded to these ethical imperatives and while much effort has been directed to addressing nuclear non-proliferation, limited progress has been made in meeting the nuclear disarmament obligations required to achieve and maintain the nuclear-weapon-free world that the international community demands,

Disappointed at the continued absence of progress towards multilateral negotiations on nuclear disarmament in the Conference on Disarmament, despite unrelenting efforts of Member States towards this end,

Noting with satisfaction the increasing awareness, renewed attention and growing momentum that has been generated by Member States and the international community since 2010 regarding the catastrophic humanitarian consequences and risks associated with nuclear weapons, which underpin the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, together with all related international initiatives,

Recalling the adoption on 7 July 2017 of the Treaty on the Prohibition of Nuclear Weapons,⁹ in which the ethical imperatives for nuclear disarmament are acknowledged, and welcoming its entry into force on 22 January 2021,

Conscious of the absolute validity of multilateral diplomacy in relation to nuclear disarmament, and determined to promote multilateralism as essential to nuclear disarmament negotiations,

⁸ Resolution [55/2](#).

⁹ [A/CONF.229/2017/8](#).

1. *Calls upon* all States to acknowledge the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, whether by accident, miscalculation or design;

2. *Acknowledges* the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, which is a “global public good of the highest order”, serving both national and collective security interests;

3. *Declares* that:

(a) The global threat posed by nuclear weapons must urgently be eliminated;

(b) Discussions, decisions and actions on nuclear weapons must focus on the effects of these weapons on human beings and the environment and must be guided by the unspeakable suffering and unacceptable harm that they cause;

(c) Greater attention must be given to the impact of a nuclear weapon detonation on women and the importance of their participation in discussions, decisions and actions on nuclear weapons;

(d) Nuclear weapons serve to undermine collective security, heighten the risk of nuclear catastrophe, aggravate international tension and make conflict more dangerous;

(e) Arguments in favour of the retention of nuclear weapons have a negative impact on the credibility of the nuclear disarmament and non-proliferation regime;

(f) The long-term plans for the modernization of nuclear weapons arsenals run contrary to commitments and obligations to nuclear disarmament and engender perceptions of the indefinite possession of these weapons;

(g) In a world where basic human needs have not yet been met, the vast resources allocated to the modernization of nuclear weapons arsenals could instead be redirected to meeting the Sustainable Development Goals;¹⁰

(h) Given the humanitarian impact of nuclear weapons, it is inconceivable that any use of nuclear weapons, irrespective of the cause, would be compatible with the requirements of international humanitarian law or international law, or the laws of morality, or the dictates of public conscience;

(i) Given their indiscriminate nature and potential to annihilate humanity, nuclear weapons are inherently immoral;

4. *Notes* that all responsible States have a solemn duty to take decisions that serve to protect their people and each other from the ravages

¹⁰ See resolution 70/1.

of a nuclear weapon detonation, and that the only way for States to do so is through the total elimination of nuclear weapons;

5. *Stresses* that all States share an ethical responsibility to act with urgency and determination, with the support of all relevant stakeholders, to take the effective measures, including legally binding measures, necessary to eliminate and prohibit all nuclear weapons, given their catastrophic humanitarian consequences and associated risks;

6. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Ethical imperatives for a nuclear-weapon-free world”.

76/27 Reducing nuclear danger

Text

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to humankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all humankind,

Emphasizing the need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomalies or other technical malfunctions,

Conscious that limited steps relating to de-alerting and de-targeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that a diminishing role for nuclear weapons in the security policies of nuclear-weapon States would have a positive impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons² that there exists an obligation for all States to pursue in good faith and bring to a conclusion

¹ Resolution S-10/2.

² A/51/218, annex.

negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also the call, in the United Nations Millennium Declaration,³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls for* a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons, including through de-alerting and de-targeting nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;

3. *Calls upon* Member States to take the measures necessary to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

4. *Takes note* of the report of the Secretary-General submitted pursuant to paragraph 5 of its resolution [75/57](#) of 7 December 2020;⁴

5. *Requests* the Secretary-General to intensify efforts and support initiatives that would contribute to the full implementation of the seven recommendations identified in the report of the Advisory Board on Disarmament Matters that would significantly reduce the risk of nuclear war,⁵ and also to continue to encourage Member States to consider the convening of an international conference, as proposed in the United Nations Millennium Declaration, to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its seventy-seventh session;

6. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Reducing nuclear danger”.

Text

The General Assembly,

Recalling its previous resolutions on the subject of chemical weapons, in particular resolution [75/55](#) of 7 December 2020,

Determined to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

Honouring the memory of and paying tribute to all victims of chemical weapons,

Reaffirming its strong support for the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction¹ and for the Organisation for the Prohibition of Chemical Weapons and its deep appreciation of the Organisation, which was awarded the Nobel Peace Prize for 2013 for its extensive efforts to eliminate chemical weapons,

Welcoming decisions C-24/DEC.4 and C-24/DEC.5 of 27 November 2019 adopted by the Conference of the States Parties at its twenty-fourth session, introducing changes to schedules 1 (A) and 1, respectively, of the Annex on Chemicals to the Convention,

Re-emphasizing its unequivocal support for the decision of the Director General of the Organisation for the Prohibition of Chemical Weapons to continue the mission to establish the facts surrounding the allegations of the use of chemical weapons, including toxic chemicals, for hostile purposes in the Syrian Arab Republic, while stressing that the safety and security of mission personnel remains the top priority, and recalling the work, pursuant to Security Council resolutions [2235 \(2015\)](#) of 7 August 2015 and [2319 \(2016\)](#) of 17 November 2016, of the Joint Investigative Mechanism of the Organisation for the Prohibition of Chemical Weapons and the United Nations,

Noting the work related to the Fourth Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention, held in The Hague from 21 to 30 November 2018,

Reaffirming the importance of the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the

Chemical Weapons Convention, held in The Hague from 8 to 19 April 2013 (the Third Review Conference), including its consensus final report, in which the Conference addressed all aspects of the Convention and made important recommendations on its continued implementation,

Emphasizing that the Third Review Conference welcomed the fact that the Convention is a unique multilateral agreement banning an entire category of weapons of mass destruction in a non-discriminatory and verifiable manner under strict and effective international control and noted with satisfaction that the Convention continues to be a remarkable success and an example of effective multilateralism,

Convinced that the Convention, 24 years after its entry into force, has reinforced its role as the international norm against chemical weapons, and that it constitutes a major contribution to:

- (a) International peace and security,
- (b) Eliminating chemical weapons and preventing their re-emergence,
- (c) The ultimate objective of general and complete disarmament under strict and effective international control,
- (d) Excluding completely, for the sake of all mankind, the possibility of the use of chemical weapons,
- (e) Promoting international cooperation and exchange in scientific and technical information in the field of chemical activities among States parties for peaceful purposes in order to enhance the economic and technological development of all States parties,

Noting the impact of the coronavirus disease (COVID-19) on the work of the Organisation for the Prohibition of Chemical Weapons and all efforts to ensure its effectiveness,

1. *Reaffirms its condemnation in the strongest possible terms* of the use of chemical weapons by anyone under any circumstances, emphasizing that any use of chemical weapons anywhere, at any time, by anyone, under any circumstances is unacceptable and is and would be a violation of international law and expressing its strong conviction that those individuals responsible for the use of chemical weapons must and should be held accountable;

2. *Condemns in the strongest possible terms* the use of a toxic chemical as a weapon against Alexei Navalny in the Russian Federation, and notes with grave concern the note by the Technical Secretariat of the Organisation for the Prohibition of Chemical Weapons of 6 October 2020 on the summary of the report on activities carried out in support of a request for technical assistance by Germany;²

² S/1906/2020.

3. *Also condemns in the strongest possible terms* that chemical weapons have since 2012 been used in Iraq, Malaysia, the Syrian Arab Republic and the United Kingdom of Great Britain and Northern Ireland, including as reported by the Joint Investigative Mechanism of the Organisation for the Prohibition of Chemical Weapons and the United Nations and by the Investigation and Identification Team of the Organisation for the Prohibition of Chemical Weapons in:

(a) The reports of the Joint Investigative Mechanism of 24 August 2016³ and 21 October 2016,⁴ which concluded that there was sufficient information to determine that the Syrian Arab Armed Forces were responsible for the attacks which released toxic substances in Talmenes, Syrian Arab Republic, on 21 April 2014, in Sarmin, Syrian Arab Republic, on 16 March 2015, and in Qmenas, Syrian Arab Republic, also on 16 March 2015, and that the so-called “Islamic State in Iraq and the Levant” used sulfur mustard in Marea, Syrian Arab Republic, on 21 August 2015;

(b) The report of the Joint Investigative Mechanism of 26 October 2017,⁵ which concluded that there was sufficient information to be confident that Islamic State in Iraq and the Levant was responsible for the use of sulfur mustard at Umm Hawsh on 15 and 16 September 2016 and that the Syrian Arab Republic was responsible for the release of sarin at Khan Shaykhun on 4 April 2017;

(c) The first report of the Investigation and Identification Team, of 8 April 2020,⁶ which concluded that there were reasonable grounds to believe that the Syrian Arab Air Force used chemical weapons in Ltamenah on 24, 25 and 30 March 2017;

(d) The second report of the Investigation and Identification Team, of 12 April 2021,⁷ which concluded that there were reasonable grounds to believe that a military helicopter of the Syrian Arab Air Force carried out a chemical weapons attack on Saraqib on 4 February 2018; and demands that the perpetrators immediately desist from any further use of chemical weapons;

4. *Takes note with great concern in that regard* of the reports of the fact-finding mission of the Organisation for the Prohibition of Chemical Weapons regarding alleged incidents in Ltamenah, Syrian Arab Republic,⁸ and regarding an alleged incident in Saraqib, Syrian Arab Republic,⁹ as well as the final report of the fact-finding mission of the Organisation regarding the incident of alleged use of toxic chemicals as a weapon in Douma, Syrian Arab

Republic, which concluded there were reasonable grounds that the use of a toxic chemical as a weapon took place;¹⁰

5. *Recalls* the adoption of:

(a) Decision C-SS-4/DEC.3 of the Fourth Special Session of the Conference of the States Parties, entitled “Addressing the threat from chemical weapons use”, of 27 June 2018;

(b) Decision EC-94/DEC.2 of the Executive Council, entitled “Addressing the possession and use of chemical weapons by the Syrian Arab Republic”, of 9 July 2020;

(c) Decision C-25/DEC.9 of the Conference of the States Parties, entitled “Addressing the possession and use of chemical weapons by the Syrian Arab Republic”, of 21 April 2021;

and stresses the importance of their implementation, in accordance with the Convention, and, accordingly, expresses concern with the conclusions contained in the report of the Director General of the Organisation for the Prohibition of Chemical Weapons of 14 October 2020 on the implementation of decision EC-94/DEC.2;¹¹

6. *Emphasizes* that the universality of the Convention is essential to achieving its object and purpose and to enhancing the security of States parties, as well as to international peace and security, underlines the fact that the objectives of the Convention will not be fully realized as long as there remains even a single State not party to the Convention that could possess or acquire such weapons, calls upon all States that have not yet done so to become parties to the Convention without delay, and in this regard recalls the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (the Third Review Conference);

7. *Underlines* the fact that the full, effective and non-discriminatory implementation of all articles of the Convention makes a major contribution to international peace and security through the elimination of existing stockpiles of chemical weapons and the prohibition of their acquisition and use, and provides for assistance and protection in the event of use or threat of use of chemical weapons and for international cooperation for peaceful purposes in the field of chemical activities;

8. *Notes* the impact of scientific and technological progress on the effective implementation of the Convention and the importance for the Organisation for the Prohibition of Chemical Weapons and its policymaking organs of taking due account of such developments;

¹⁰ See S/2019/208, annex.

¹¹ EC-96/DG.1.

9. *Reaffirms* that the obligation of the States parties to complete the destruction of chemical weapons stockpiles and the destruction or conversion of chemical weapons production facilities in accordance with the provisions of the Convention and the Annex on Implementation and Verification (Verification Annex) and under the verification of the Technical Secretariat of the Organisation for the Prohibition of Chemical Weapons is essential for the realization of the object and purpose of the Convention;

10. *Stresses* the importance to the Convention that all possessors of chemical weapons, chemical weapons production facilities or chemical weapons development facilities, including previously declared possessor States, should be among the States parties to the Convention, and welcomes progress to that end;

11. *Recalls* that the Third Review Conference expressed concern regarding the statement made by the Director General of the Organisation for the Prohibition of Chemical Weapons in his report to the Executive Council of the Organisation at its sixty-eighth session, provided in accordance with paragraph 2 of decision C-16/DEC.11 of 1 December 2011 adopted by the Conference of the States Parties at its sixteenth session, that three possessor States parties, namely, Libya, the Russian Federation and the United States of America, had been unable to fully meet the final extended deadline of 29 April 2012 for the destruction of their chemical weapons stockpiles, and also expressed determination that the destruction of all categories of chemical weapons should be completed in the shortest time possible in accordance with the provisions of the Convention and the Verification Annex, and with the full application of the relevant decisions that have been taken;

12. *Welcomes* the confirmation by the Director General of the Organisation for the Prohibition of Chemical Weapons expressed in his report of 5 October 2017,¹² based upon information received from the Russian Federation and independent information received from the inspectors of the Organisation, regarding the completion of the full destruction of chemical weapons declared by the Russian Federation;

13. *Also welcomes* the completed destruction of Libya's remaining category 2 chemical weapons, as reported by the Director General of the Organisation for the Prohibition of Chemical Weapons in his report of 22 December 2017,¹³ as well as the completed destruction by Iraq of its entire declared stockpile of chemical weapons remnants, as reported by the Director General in his report of 28 February 2018;¹⁴

14. *Notes with concern* that, along with the threat of the possible production, acquisition and use of chemical weapons by States, the

international community also faces the danger of the production, acquisition and use of chemical weapons by non-State actors, including terrorists, concerns which have highlighted the necessity of achieving universal adherence to the Convention, as well as the high level of readiness of the Organisation for the Prohibition of Chemical Weapons, and stresses that the full and effective implementation of all provisions of the Convention, including those on national implementation (article VII) and assistance and protection (article X), constitutes an important contribution to the efforts of the United Nations in the global fight against terrorism in all its forms and manifestations;

15. *Notes* that the effective application of the verification system builds confidence in compliance with the Convention by States parties;

16. *Stresses* the importance of the Organisation for the Prohibition of Chemical Weapons in verifying compliance with the provisions of the Convention as well as in promoting the timely and efficient accomplishment of all its objectives;

17. *Expresses grave concern* that, despite the verified destruction of all 27 chemical weapons production facilities declared by the Syrian Arab Republic, the Technical Secretariat, as recently reported by the Director General in his report of 24 September 2021,¹⁵ cannot fully verify that the Syrian Arab Republic has submitted a declaration that can be considered accurate and complete in accordance with the Convention or Executive Council decision EC-M-33/DEC.1 as well as with the conclusion of decision C-SS-4/DEC.3, of the Fourth Review Conference, that the Syrian Arab Republic failed to declare and destroy all of its chemical weapons and chemical weapons production facilities, and underscores the importance of such full verification;

18. *Urges* all States parties to the Convention to meet in full and on time their obligations under the Convention and to support the Organisation for the Prohibition of Chemical Weapons in its implementation activities;

19. *Welcomes* the progress made in the national implementation of article VII obligations, commends the States parties and the Technical Secretariat for assisting other States parties, on request, with the implementation of the follow-up to the plan of action regarding article VII obligations, urges States parties that have not fulfilled their obligations under article VII to do so without further delay, in accordance with their constitutional processes, and in this context reaffirms that full, effective and non-discriminatory implementation of article VII is essential for the realization of the object and purpose of the Convention;

¹⁵ EC-98/DG.24.

20. *Emphasizes* the continuing relevance and importance of the provisions of article X of the Convention, welcomes the activities of the Organisation for the Prohibition of Chemical Weapons in relation to assistance and protection against chemical weapons, supports further efforts by both States parties and the Technical Secretariat to promote a high level of readiness to respond to chemical weapons threats as articulated in article X, and welcomes the effectiveness and efficiency of the increased focus on making full use of regional and subregional capacities and expertise, including taking advantage of established training centres;

21. *Reaffirms* that the provisions of the Convention shall be implemented in a manner that avoids hampering the economic or technological development of States parties and international cooperation in the field of chemical activities for purposes not prohibited under the Convention, including the international exchange of scientific and technical information, and chemicals and equipment for the production, processing or use of chemicals for purposes not prohibited under the Convention;

22. *Emphasizes* the importance of the provisions of article XI of the Convention relating to the economic and technological development of States parties, recalls that the full, effective and non-discriminatory implementation of those provisions contributes to universality, and reaffirms the undertaking of the States parties to foster international cooperation for peaceful purposes in the field of chemical activities of the States parties and the importance of that cooperation and its contribution to the promotion of the Convention as a whole;

23. *Notes with appreciation* the ongoing work of the Organisation for the Prohibition of Chemical Weapons to achieve the object and purpose of the Convention, to ensure the full implementation of its provisions, including those for international verification of compliance with it, and to provide a forum for consultation and cooperation among States parties;

24. *Welcomes* the cooperation between the United Nations and the Organisation for the Prohibition of Chemical Weapons within the framework of the relationship agreement between the United Nations and the Organisation,¹⁶ in accordance with the provisions of the Convention;

25. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction”.

76/30 Humanitarian consequences of nuclear weapons

Text

The General Assembly,

Recalling its resolutions [70/47](#) of 7 December 2015, [71/46](#) of 5 December 2016, [72/30](#) of 4 December 2017, [73/47](#) of 5 December 2018, [74/42](#) of 12 December 2019 and [75/39](#) of 7 December 2020,

Reiterating the deep concern about the catastrophic consequences of nuclear weapons,

Stressing that the immense and uncontrollable destructive capability and indiscriminate nature of nuclear weapons cause unacceptable humanitarian consequences, as has been demonstrated through their past use and testing,

Recalling that concern about the humanitarian consequences of nuclear weapons has been reflected in numerous United Nations resolutions, including the first resolution adopted by the General Assembly, on 24 January 1946,

Recalling also that at the first special session of the General Assembly devoted to disarmament, in 1978, the Assembly stressed that nuclear weapons posed the greatest danger to mankind and to the survival of civilization,¹

Welcoming the renewed interest and resolve of the international community, together with the International Committee of the Red Cross and international humanitarian organizations, to address the catastrophic consequences of nuclear weapons,

Recalling that the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons expressed deep concern at the catastrophic humanitarian consequences of any use of nuclear weapons,²

Noting the resolution of 26 November 2011 of the Council of Delegates of the International Red Cross and Red Crescent Movement entitled “Working towards the elimination of nuclear weapons”,

Recalling the joint statements on the humanitarian consequences of nuclear weapons delivered to the General Assembly and during the 2010–2015 cycle of the review of the Treaty on the Non-Proliferation of Nuclear Weapons,³

Welcoming the facts-based discussions on the effects of a nuclear weapon detonation that were held at the conferences on the humanitarian impact of

nuclear weapons, convened by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014,

Cognizant that a key message from experts and international organizations at those conferences was that no State or international body could address the immediate humanitarian emergency caused by a nuclear weapon detonation or provide adequate assistance to victims,

Firmly believing that it is in the interest of all States to engage in discussions on the humanitarian consequences of nuclear weapons with the aim of further broadening and deepening the understanding of this matter, and welcoming civil society's ongoing engagement,

Reaffirming the role of civil society, in partnership with Governments, in raising awareness about the unacceptable humanitarian consequences of nuclear weapons,

Emphasizing that the catastrophic consequences of nuclear weapons affect not only Governments but each and every citizen of our interconnected world and have deep implications for human survival, for the environment, for socioeconomic development, for our economies and for the health of future generations,

1. *Stresses* that it is in the interest of the very survival of humanity that nuclear weapons never be used again, under any circumstances;

2. *Emphasizes* that the only way to guarantee that nuclear weapons will never be used again is their total elimination;

3. *Stresses* that the catastrophic effects of a nuclear weapon detonation, whether by accident, miscalculation or design, cannot be adequately addressed;

4. *Expresses its firm belief* that awareness of the catastrophic consequences of nuclear weapons must underpin all approaches and efforts towards nuclear disarmament;

5. *Calls upon* all States, in their shared responsibility, to prevent the use of nuclear weapons, to prevent their vertical and horizontal proliferation and to achieve nuclear disarmament;

6. *Urges* States to exert all efforts to totally eliminate the threat of these weapons of mass destruction;

7. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled "General and complete disarmament", the sub-item entitled "Humanitarian consequences of nuclear weapons".

The General Assembly,

Recalling its various resolutions in the field of nuclear disarmament, including resolutions [60/72](#) of 8 December 2005, [62/24](#) of 5 December 2007, [64/31](#) of 2 December 2009, [66/28](#) of 2 December 2011, [68/35](#) of 5 December 2013, [69/43](#) and [69/48](#) of 2 December 2014, [70/38](#) of 7 December 2015, [72/29](#) of 4 December 2017 and [74/36](#) of 12 December 2019,

Bearing in mind its resolution [2373 \(XXII\)](#) of 12 June 1968, the annex to which contains the Treaty on the Non-Proliferation of Nuclear Weapons,¹

Noting the provisions of article VIII, paragraph 3, of the Treaty regarding the convening of review conferences at five-year intervals,

Recalling its resolution [50/70 Q](#) of 12 December 1995, in which the General Assembly noted that the States parties to the Treaty affirmed the need to continue to move with determination towards the full realization and effective implementation of the provisions of the Treaty, and accordingly adopted a set of principles and objectives,

Recalling also that, on 11 May 1995, the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons adopted three decisions on, respectively, strengthening the review process for the Treaty, principles and objectives for nuclear non-proliferation and disarmament, and extension of the Treaty,²

Reaffirming the resolution on the Middle East adopted on 11 May 1995 by the 1995 Review and Extension Conference, in which the Conference reaffirmed the importance of the early realization of universal adherence to the Treaty and placement of nuclear facilities under full-scope International Atomic Energy Agency safeguards,

Reaffirming also its resolution [55/33 D](#) of 20 November 2000, in which the General Assembly welcomed the adoption by consensus on 19 May 2000 of the Final Document of the 2000 Review Conference of the Parties to the

Treaty on the Non-Proliferation of Nuclear Weapons,³ including, in particular, the documents entitled “Review of the operation of the Treaty, taking into account the decisions and the resolution adopted by the 1995 Review and Extension Conference” and “Improving the effectiveness of the strengthened review process for the Treaty”,⁴

Taking into consideration the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties to the Treaty are committed under article VI of the Treaty,

Expressing concern that the ninth Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, held from 27 April to 22 May 2015, was not able to reach agreement on a substantive final document,

1. *Recalls* that the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons reaffirmed the continued validity of the practical steps agreed to in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;⁵

2. *Determines* to pursue practical steps for systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;

(d) Concrete agreed measures to reduce further the operational status of nuclear weapons systems;

(e) A diminishing role for nuclear weapons in security policies so as to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(f) The engagement, as soon as appropriate, of all the nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

4. *Notes* that the 2000 and 2010 Review Conferences agreed that legally binding security assurances by the five nuclear-weapon States to the non-nuclear-weapon States parties to the Treaty strengthen the nuclear non-proliferation regime;

5. *Urges* the States parties to the Treaty to follow up on the implementation of the nuclear disarmament obligations under the Treaty agreed to at the 1995, 2000 and 2010 Review Conferences within the framework of review conferences and their preparatory committees;

76/32 Assistance to States for curbing the illicit traffic in small arms and light weapons and collecting them

Text

The General Assembly,

Recalling its resolution [75/56](#) of 7 December 2020,

Deeply concerned by the magnitude of human casualty and suffering, especially among children, caused by the illicit proliferation and use of small arms and light weapons,

Concerned by the negative impact that the illicit proliferation and use of those weapons continue to have on the efforts of States in the Sahelo-Saharan subregion in the areas of poverty eradication, sustainable development and the maintenance of peace, security and stability,

Bearing in mind the Bamako Declaration on an African Common Position on the Illicit Proliferation, Circulation and Trafficking of Small Arms and Light Weapons, adopted in Bamako on 1 December 2000,¹

Recalling the report of the Secretary-General entitled “In larger freedom: towards development, security and human rights for all”,² in which he emphasized that States must strive just as hard to eliminate the threat of small arms and light weapons as they do to eliminate the threat of weapons of mass destruction,

Recalling also the International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons, adopted on 8 December 2005,³

Recalling further the expression of support in the 2005 World Summit Outcome for the implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,⁴

Recalling also the entry into force of the Convention on 29 September 2009,

³ See decision 60/519 and [A/60/88](#) and [A/60/88/Corr.2](#), annex.

⁴ Resolution [60/1](#), para. 93.

Recalling further the decision taken by the Economic Community to establish the Small Arms Unit, responsible for advocating appropriate policies and developing and implementing programmes, as well as the establishment of the Economic Community's Small Arms Control Programme, launched on 6 June 2006 in Bamako, in replacement of the Programme for Coordination and Assistance for Security and Development,

Taking note of the latest report of the Secretary-General on the illicit trade in small arms and light weapons in all its aspects and assistance to States for curbing the illicit traffic in small arms and light weapons and collecting them,⁵

Recalling, in that regard, the decision of the European Union to significantly support the Economic Community in its efforts to combat the illicit proliferation of small arms and light weapons,

Recognizing the important role that civil society organizations play, by raising public awareness, in efforts to curb the illicit traffic in small arms and light weapons,

Recalling the report of the Seventh Biennial Meeting of States to Consider the Implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, held in New York from 26 to 30 July 2021,⁶

Agenda item 100 (aa)

76/33 Compliance with non-proliferation, arms limitation and disarmament agreements and commitments

Text

The General Assembly,

Recalling its decision 75/517 of 7 December 2020 and relevant resolutions on the question,

Recognizing the abiding concern of all Member States for ensuring respect for the rights and obligations arising from treaties to which they are parties and from other sources of international law,

Convinced that observance by Member States of the Charter of the United Nations and compliance with non-proliferation, arms limitation and disarmament agreements to which they are parties and with other agreed obligations are essential for regional and global peace, security and stability,

Stressing that failure by States parties to comply with such agreements and with other agreed obligations not only adversely affects the security of States parties but also can create security risks for other States relying on the constraints and commitments stipulated in those agreements,

Stressing also that the viability and effectiveness of non-proliferation, arms limitation and disarmament agreements and of other agreed obligations require that those agreements be fully complied with and enforced,

Concerned by non-compliance by some States with their respective obligations,

Noting that verification and compliance, and enforcement in a manner consistent with the Charter, are integrally related,

Recognizing the importance of and support for effective national, regional and international capacities for such verification, compliance and enforcement,

Recognizing also that full compliance by States with all their respective Non-Proliferation, arms limitation and disarmament agreements and with other agreed obligations they have undertaken contributes to efforts to prevent the development and proliferation, contrary to international obligations, of weapons of mass destruction, related technologies and means of delivery, as well as to efforts to deny non-State actors access to such capabilities,

1. *Underscores* the contribution that compliance with non-proliferation, arms limitation and disarmament agreements and with other agreed obligations makes to enhancing confidence and to strengthening international security and stability;

2. *Urges* all States to implement and to comply fully with their respective obligations;

3. *Welcomes* efforts by all States to pursue additional areas of cooperation, as appropriate, that can increase confidence in compliance with existing Non-Proliferation, arms limitation and disarmament agreements and commitments and reduce the possibility of misinterpretation and misunderstanding;

4. *Calls upon* all States to include and empower women, including through capacity-building efforts, as appropriate, as full, equal and meaningful participants in the design and implementation of disarmament, non-proliferation and arms control efforts;

5. *Calls upon* all Member States to encourage and, for those States in a position to do so, to appropriately help States that request assistance to increase their capacity to implement fully their obligations;

6. *Calls upon* Member States to support efforts aimed at the resolution of compliance questions by means consistent with such agreements and other applicable international law;

7. *Welcomes* the role that the United Nations has played and continues to play in maintaining the integrity of certain arms limitation, disarmament and non-proliferation agreements and in addressing threats to international peace and security;

8. *Calls upon* all concerned States to take concerted action, in a manner consistent with relevant international law, to encourage, through bilateral and multilateral means, the compliance by all States with their respective non-proliferation, arms limitation and disarmament agreements and with other agreed obligations, and to hold those not in compliance with such agreements or obligations accountable for their non-compliance in a manner consistent with the Charter of the United Nations;

9. *Urges* those States not currently in compliance with their respective obligations and commitments to make the strategic decision to come back into compliance;

10. *Encourages* efforts by all States, the United Nations and other international organizations, pursuant to their respective mandates, to take action, consistent with the Charter, to prevent serious damage to international security and stability arising from non-compliance by States with their existing non-proliferation, arms limitation and disarmament obligations;

11. *Decides* to include in the provisional agenda of its seventy-ninth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Compliance with non-proliferation, arms limitation and disarmament agreements and commitments”.

Welcoming the convening of the high-level meeting of the General Assembly on nuclear disarmament, on 26 September 2013, and recognizing its contribution to furthering the objective of the total elimination of nuclear weapons,

Emphasizing the importance of seeking a safer world for all and achieving peace and security in a world without nuclear weapons,

Reaffirming that effective measures of nuclear disarmament have the highest priority, as affirmed at the first special session of the General Assembly devoted to disarmament,

Convinced that nuclear disarmament and the total elimination of nuclear weapons are the only absolute guarantee against the use or threat of use of nuclear weapons,

Acknowledging the significant contribution made by a number of countries towards realizing the objective of nuclear disarmament by the establishment of nuclear-weapon-free zones, as well as by the voluntary renunciation of nuclear weapon programmes or withdrawal of all nuclear weapons from their territories, and strongly supporting the speedy establishment of a nuclear-weapon-free zone in the Middle East,

Recalling the resolve of the Heads of State and Government, as contained in the United Nations Millennium Declaration,¹ to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Reaffirming the central role of the United Nations in the field of disarmament, and reaffirming also the continued importance and relevance of multilateral disarmament machinery as mandated by the General Assembly at its first special session devoted to disarmament,

¹ Resolution [55/2](#).

Mindful of the solemn obligations of States parties, undertaken in article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ particularly to pursue negotiations in good faith on effective measures relating to the cessation of the nuclear arms race at an early date and to nuclear disarmament,

Expressing its concern that improvements in existing nuclear weapons and the development of new types of nuclear weapons, as provided for in the military doctrines of some nuclear-weapon States, violate their legal obligations on nuclear disarmament, as well as the commitments made to diminish the role of nuclear weapons in their military and security policies, and contravene the negative security assurances provided by the nuclear-weapon States,

Expressing its deep concern that the negotiations in the Conference on Disarmament for the conclusion of a comprehensive convention on nuclear weapons have not yet commenced,

Determined to work collectively towards the realization of nuclear disarmament,

1. *Underlines* the strong support, expressed at the high-level meeting of the General Assembly on nuclear disarmament, held on 26 September 2013, for taking urgent and effective measures to achieve the total elimination of nuclear weapons;

76/40 Promotion of multilateralism in the area of disarmament and non-proliferation

Text

The General Assembly,

Determined to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolution 56/24 T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolutions 57/63 of 22 November 2002, 58/44 of 8 December 2003, 59/69 of 3 December 2004, 60/59 of 8 December 2005, 61/62 of 6 December 2006, 62/27 of 5 December 2007, 63/50 of 2 December 2008, 64/34 of 2 December 2009, 65/54 of 8 December 2010, 66/32 of 2 December 2011, 67/38 of 3 December 2012, 68/38 of 5 December 2013, 69/54 of 2 December 2014, 70/31 of 7 December 2015, 71/61 of 5 December 2016, 72/48 of 4 December 2017, 73/41 of 5 December 2018, 74/55 of 12 December 2019 and 75/47 of 7 December 2020 on the promotion of multilateralism in the area of disarmament and non-proliferation,

Recalling also the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

Recalling further the United Nations Millennium Declaration,¹ in which it is stated, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Convinced that, in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and therefore should have the possibility to participate in the negotiations that arise to tackle them,

¹ Resolution 55/2.

Bearing in mind the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

Aware of the need to advance further in the field of arms regulation, Non-Proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

Recognizing also that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to international peace and security which need to be dealt with, with the highest priority,

Considering that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

Stressing that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would make an essential contribution to the creation of multilateral and bilateral friendly relations among peoples and nations,

Being gravely concerned at the continuous and progressive erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that the abrogation of major instruments of the arms control and Non-Proliferation architecture as a result of unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

Noting that the Eighteenth Summit of Heads of State or Government of Non-Aligned Countries, held in Baku on 25 and 26 October 2019, welcomed the adoption of resolution [73/41](#) on the promotion of multilateralism in the area of disarmament and non-proliferation and underlined the fact that multilateralism and multilaterally agreed solutions, in accordance with the Charter, provide the only sustainable method of addressing disarmament and international security issues,²

² See [A/74/548](#), annex.

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;

2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;

3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;

4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament and the multilateral disarmament forums, which constitute an expression of the results of international cooperation and multilateral negotiations in response to the challenges facing humankind;

5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation, submitted pursuant to resolution [75/47](#);³

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and Non-Proliferation and to submit a report thereon to the General Assembly at its seventy-seventh session;

9. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Promotion of multilateralism in the area of disarmament and non-proliferation”.

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,¹

Recalling the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,²

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament at the regional and subregional levels,

¹ Resolution [S-10/2](#).

² *Official Records of the General Assembly, Forty-eighth Session, Supplement No. 42 (A/48/42)*, annex II.

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. *Calls upon* States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. *Welcomes* the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. *Supports and encourages* efforts aimed at promoting confidence-building measures at the regional and subregional levels to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

The General Assembly,

Recalling its resolutions [48/75](#) J of 16 December 1993, [49/75](#) O of 15 December 1994, [50/70](#) L of 12 December 1995, [51/45](#) Q of 10 December 1996, [52/38](#) Q of 9 December 1997, [53/77](#) P of 4 December 1998, [54/54](#) M of 1 December 1999, [55/33](#) P of 20 November 2000, [56/24](#) I of 29 November 2001, [57/77](#) of 22 November 2002, [58/39](#) of 8 December 2003, [59/88](#) of 3 December 2004, [60/75](#) of 8 December 2005, [61/82](#) of 6 December 2006, [62/44](#) of 5 December 2007, [63/44](#) of 2 December 2008, [64/42](#) of 2 December 2009, [65/46](#) of 8 December 2010, [66/37](#) of 2 December 2011, [67/62](#) of 3 December 2012, [68/56](#) of 5 December 2013, [69/47](#) of 2 December 2014, [70/44](#) of 7 December 2015, [71/41](#) of 5 December 2016, [72/35](#) of 4 December 2017, [73/34](#) of 5 December 2018, [74/38](#) of 12 December 2019 and [75/50](#) of 7 December 2020,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Recognizing also the importance of equitable representation of women in arms control discussions and negotiations,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,¹ which is a cornerstone of European security,

¹ See [CD/1064](#).

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

3. *Requests* the Secretary-General, in the meantime, to seek the views of Member States on the subject and to submit a report to the General Assembly at its seventy-seventh session;

4. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Conventional arms control at the regional and subregional levels”.

Agenda item 100 (ff)

76/47 Implementation of the Convention on Cluster Munitions

Text

The General Assembly,

Recalling its resolutions 63/71 of 2 December 2008 on the Convention on Cluster Munitions and 70/54 of 7 December 2015, 71/45 of 5 December 2016, 72/54 of 4 December 2017, 73/54 of 5 December 2018, 74/62 of 12 December 2019 and 75/62 of 7 December 2020 on the implementation of the Convention,

Reaffirming its determination to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

Deploing the recent cases of cluster munitions use and related civilian casualties, and calling upon those who continue to use cluster munitions to cease any such activity immediately,

Conscious that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can have a negative impact on national and international peacebuilding and humanitarian assistance efforts, and have other severe consequences for many years after use,

Concerned about the dangers presented by the large national stockpiles of cluster munitions retained for operational use, and determined to ensure their rapid destruction,

Recognizing the impact of cluster munitions on women, men, girls and boys and the importance of relevant States providing adequate, gender- and age-sensitive assistance to victims of cluster munitions,

Believing it necessary to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

Mindful of the need to adequately coordinate efforts undertaken in various forums, including through the Convention on the Rights of Persons with Disabilities,¹ to address the rights and needs of victims of various types of weapons, and resolved to avoid discrimination among victims of various types of weapons,

¹ United Nations, *Treaty Series*, vol. 2515, No. 44910.

Reaffirming that in cases not covered by the Convention on Cluster Munitions² or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law, derived from established custom, from the principles of humanity and from the dictates of public conscience,

Welcoming the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions, and welcoming also in this regard that, since 2014, all Central American States have joined the Convention, thus fulfilling their aspiration to become the first cluster munitions-free region in the world,

Stressing the role of public conscience in furthering the principles of humanity, as evidenced by the global call for an end to civilian suffering caused by cluster munitions, and recognizing the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organizations around the world,

Noting that a total of 123 States have joined the Convention, 110 as States parties and 13 as signatories,

Emphasizing the need to make further efforts in accelerating the universalization process,

Noting the outcome of the second Review Conference of States Parties to the Convention on Cluster Munitions, held in Geneva from 25 to 27 November 2020 and on 20 and 21 September 2021, and in particular the adoption of the Lausanne Declaration entitled “Protecting lives, empowering victims, enabling development” and the Lausanne Action Plan 2021–2026 to support the full and effective implementation of the Convention,

Recognizing the importance of full involvement and equal opportunities for the meaningful participation of women and men in disarmament processes, policy and programming decisions related to the Convention,

1. *Urges* all States not parties to the Convention on Cluster Munitions to ratify or accede to it as soon as possible, and all States parties that are in a position to do so to promote adherence to the Convention through bilateral, subregional and multilateral contacts, outreach and other means;

2. *Stresses* the importance of the full and effective implementation of and compliance with the Convention, including through the implementation of the Lausanne Action Plan, as appropriate;

3. *Expresses strong concern* regarding the number of allegations, reports or documented evidence of the use of cluster munitions in different

² Ibid., vol. 2688, No. 47713.

parts of the world, related civilian casualties and other consequences that impede the achievement of sustainable development;

4. *Urges* all States parties to provide the Secretary-General with complete and timely information as required under article 7 of the Convention in order to promote transparency and compliance with the Convention;

5. *Invites* all States that have not ratified the Convention or acceded to it to provide, on a voluntary basis, information that could make the clearance and destruction of cluster munition remnants and related activities more effective;

6. *Reiterates* the invitation to States not parties to participate in a continued dialogue on issues relevant to the Convention in order to enhance its humanitarian impact and to promote its universalization, as well as to engage in a military-to-military dialogue in order to address specific security issues related to cluster munitions;

7. *Reiterates its invitation and encouragement* to all States parties, interested States, the United Nations, other relevant international organizations or institutions, regional organizations, the International Committee of the Red Cross, the Cluster Munition Coalition and other relevant non-governmental organizations to participate in the upcoming formal meetings under the Convention;

8. *Invites and encourages* all interested States, the United Nations, other relevant international organizations or institutions, regional organizations, the International Committee of the Red Cross and relevant non-governmental organizations to attend the tenth Meeting of States Parties to the Convention on Cluster Munitions, to be held in Geneva from 30 August to 2 September 2022, and to participate in the future programme of meetings of the States parties to the Convention;

9. *Requests* the Secretary-General to continue to convene the Meetings of States Parties to the Convention and to continue to render the necessary assistance and to provide such services as may be necessary to fulfil the tasks entrusted to him under the Convention and in the relevant decisions of the Meetings of States Parties and the second Review Conference;

10. *Calls upon* States parties and participating States to address issues arising from outstanding dues, including options to ensure sustainable financing for all formal meetings and prompt payment of respective shares of the estimated costs;

11. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Implementation of the Convention on Cluster Munitions”.

76/48 Universal Declaration on the Achievement of a Nuclear-Weapon-Free World

Text

The General Assembly,

Recalling its long-standing support for the total elimination of all nuclear weapons, its resolution [70/57](#) of 7 December 2015, by which it adopted the Universal Declaration on the Achievement of a Nuclear-Weapon-Free World, and its resolution [73/57](#) of 5 December 2018,

Recognizing the need to achieve a world without nuclear weapons,

Emphasizing, in this regard, the fundamental role of the agreement on the Final Document of the Tenth Special Session of the General Assembly of 30 June 1978,¹ in which it is stated, inter alia, that “effective measures of nuclear disarmament and the prevention of nuclear war have the highest priority”,

Emphasizing also the crucial role of the Treaty on the Non-Proliferation of Nuclear Weapons² in achieving nuclear disarmament and nuclear non-proliferation, and recalling in particular the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty, agreed to at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons and reaffirmed by the 2010 Review Conference,

Bearing in mind the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons, issued on 8 July 1996,³ in which the Court concluded unanimously that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Acknowledging the significant contribution made towards realizing the objectives of nuclear disarmament and non-proliferation, pending the total elimination of nuclear weapons, through the establishment of nuclear-weapon-free zones, although they are not an end in themselves, and reaffirming the political decision of 115 States parties to the treaties that establish nuclear-weapon-free zones and Mongolia to reject nuclear weapons,

¹ Resolution [S-10/2](#).

³ [A/51/218](#), annex.

Marking the fifteenth anniversary of the signing of the Treaty on a Nuclear-Weapon-Free Zone in Central Asia⁴ and the thirtieth anniversary of the closure of the Semipalatinsk nuclear test site,

Noting the entry into force, on 22 January 2021, of the Treaty on the Prohibition of Nuclear Weapons,⁵ which has become a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination,

Recalling the relevant principles and agreements of international humanitarian law and the laws of war, and recalling also the expression of deep concern by the 2010 Review Conference at the catastrophic humanitarian consequences of any use of nuclear weapons,⁶

Taking into account, in this context, the Secretary-General's disarmament agenda, *Securing Our Common Future: An Agenda for Disarmament*, announced in May 2018,

1. *Recalls* the adoption of the Universal Declaration on the Achievement of a Nuclear-Weapon-Free World, annexed to resolution [70/57](#);

2. *Invites* States, agencies and organizations of the United Nations system and intergovernmental and non-governmental organizations to disseminate the Declaration and to promote its implementation;

3. *Requests* the Secretary-General to seek the views of Member States on the efforts that they have made and the measures that they have taken with respect to the implementation of the Declaration, and also requests the Secretary-General to submit to the General Assembly at its seventy-ninth session a report on the implementation of the Declaration;

4. *Decides* to include in the provisional agenda of its seventy-ninth session, under the item entitled "General and complete disarmament", the sub-item entitled "Universal Declaration on the Achievement of a Nuclear-Weapon-Free World".

Agenda item 100 (q)

76/49 Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments

Text

The General Assembly,

Recalling its resolutions [1 \(I\)](#) of 24 January 1946, [71/54](#) of 5 December 2016, [72/39](#) of 4 December 2017, [73/70](#) of 5 December 2018, [74/46](#) of 12 December 2019 and [75/65](#) of 7 December 2020,

Noting the twenty-third anniversary of the launch of the New Agenda Coalition and the joint declaration outlining a new agenda for disarmament, adopted in Dublin on 9 June 1998,¹

Welcoming the Secretary-General's disarmament agenda, *Securing Our Common Future: An Agenda for Disarmament*, and emphasizing the importance of its implementation,

Reiterating its grave concern at the danger to humanity posed by nuclear weapons, which should inform all deliberations, decisions and actions relating to nuclear disarmament and nuclear non-proliferation,

Recalling the expression of deep concern by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and its resolve to seek a safer world for all and to achieve the peace and security of a world without nuclear weapons,²

Noting with satisfaction the renewed attention to the catastrophic humanitarian consequences and risks associated with nuclear weapons that has been generated by the international community since 2010 and the growing awareness that these concerns should underpin the need for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, and noting with satisfaction also the prominence accorded to the humanitarian impact of nuclear weapons in multilateral disarmament forums,

Recalling the discussions held at the Conferences on the Humanitarian Impact of Nuclear Weapons, hosted by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014, aimed at understanding and developing a greater awareness of the catastrophic consequences of nuclear weapon detonations which further reinforce the urgency of nuclear disarmament,

¹ [A/53/138](#), annex.

² See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I ([NPT/CONF.2010/50 \(Vol. I\)](#)), part I, *Conclusions and recommendations for follow-on actions*.

Emphasizing the compelling evidence, including that presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, that has detailed the catastrophic consequences that would result from any nuclear weapon detonation, reaching well beyond national borders and also imperilling the achievement of the Sustainable Development Goals,³ the lack of capacity of States and international organizations to deal with the aftermath and the risk of an occurrence, including an occurrence due to an accident, systems failure or human error,

Noting the strongly disproportionate and gendered impact of exposure to ionizing radiation for women and girls,

Welcoming the entry into force on 22 January 2021 of the Treaty on the Prohibition of Nuclear Weapons, negotiated and adopted by the United Nations conference to negotiate a legally binding instrument to prohibit nuclear weapons, leading towards their total elimination, pursuant to resolution [71/258](#) of 23 December 2016,⁴

Welcoming also the commemoration and promotion of 26 September as the International Day for the Total Elimination of Nuclear Weapons, as established by resolution [68/32](#) of 5 December 2013,

Underlining the importance of nuclear disarmament and non-proliferation education,

Reaffirming that nuclear disarmament and nuclear non-proliferation are mutually reinforcing processes requiring urgent irreversible progress on both fronts,

Recalling the decisions and the resolution adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁵ the basis upon which the Treaty was indefinitely extended, and the Final Documents of the 2000⁶ and the 2010⁷ Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and in particular the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty,

³ See resolution [70/1](#).

⁴ [A/CONF.229/2017/8](#).

⁵ See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

⁶ *2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vols. I–III (NPT/CONF.2000/28 (Parts I and II), NPT/CONF.2000/28 (Part III) and NPT/CONF.2000/28 (Part IV)).

⁷ *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vols. I–III (NPT/CONF.2010/50 (Vol. I), NPT/CONF.2010/50 (Vol. II) and NPT/CONF.2010/50 (Vol. III)).

Reaffirming that transparency, verifiability and irreversibility are cardinal principles applying to nuclear disarmament and nuclear non-proliferation, and reaffirming also the commitment of all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁸ to applying these principles in relation to the implementation of their treaty obligations,

Recalling the twenty-fifth anniversary of the opening for signature of the Comprehensive Nuclear-Test-Ban Treaty⁹ and the continued vital importance of its entry into force to the advancement of nuclear disarmament and nuclear Non-Proliferation objectives,

Recalling also that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons and the legitimate interest of non-nuclear-weapon States in receiving unequivocal and legally binding negative security assurances from nuclear-weapon States pending the total elimination of nuclear weapons,

Reaffirming the conviction that, pending the total elimination of nuclear weapons, the establishment and maintenance of nuclear-weapon-free zones enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objectives of nuclear disarmament, and welcoming the Conferences of States Parties and Signatories to Treaties that Establish Nuclear-Weapon-Free Zones and Mongolia,

Urging States to continue to make real progress towards strengthening all existing nuclear-weapon-free zones, inter alia, through the ratification of existing treaties and relevant protocols and the withdrawal or revision of any reservations or interpretative declarations contrary to the object and purpose of the treaties establishing such zones,

Recalling the encouragement expressed at the 2010 Review Conference for the establishment of further nuclear-weapon-free zones, on the basis of arrangements freely arrived at among the States of the region concerned, reaffirming the expectation that this will be followed by concerted international efforts to create such zones in areas where they do not currently exist, especially in the Middle East, in this context noting with deep disappointment the non-fulfilment of the agreement at the 2010 Review Conference on practical steps to fully implement the 1995 resolution on the Middle East, and disappointed that no agreement could be reached at the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on this issue,

Recalling also its decision 73/546 of 22 December 2018, in which it decided to entrust to the Secretary-General the convening of a conference

⁸ United Nations, *Treaty Series*, vol. 729, No. 10485.

⁹ See resolution [50/245](#) and [A/50/1027](#).

aimed at elaborating a treaty on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction, on the basis of arrangements freely arrived at by the States of the region, and encouraged by the outcomes of the first session of the conference, which was successfully convened in 2019,

Deeply disappointed at the continued absence of progress towards multilateral nuclear disarmament at the Conference on Disarmament, which has been unable for the past 25 years to agree upon and implement a programme of work, and disappointed that the Disarmament Commission has not produced a substantive outcome on nuclear disarmament since 1999,

Deeply regretting the lack of any substantive outcome of the 2015 Review Conference, as it missed an opportunity to strengthen the Treaty on the Non-Proliferation of Nuclear Weapons, enhance progress towards its full implementation and universality and monitor the implementation of commitments made and actions agreed upon at the 1995, 2000 and 2010 Review Conferences, and deeply concerned about the impact of this failure on the Treaty and the balance between its three pillars,

Noting with serious concern the rising tensions in international relations and the increased prominence being given by some States to nuclear weapons in their security doctrines, as well as the extensive modernization programmes under way, all of which contribute to the erosion of the disarmament and non-proliferation regime,

Noting with regret that, owing to the coronavirus disease (COVID-19) pandemic, the 2020 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons had to be postponed, emphasizing the importance of holding a constructive, comprehensive and successful meeting that results in a substantive outcome at the 2020 Review Conference, urging all Member States to step up their efforts in this regard, and emphasizing also the vital importance of ensuring that the 2020 Review Conference contributes to the strengthening of the Treaty on the Non-Proliferation of Nuclear Weapons and making progress towards achieving its full implementation and universality, and monitors the implementation of commitments made and actions agreed upon at the 1995, 2000 and 2010 Review Conferences,

Welcoming that the Russian Federation and the United States of America have agreed on a five-year extension, to 4 February 2026, of the Treaty on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, while re-emphasizing the encouragement of the 2000 and 2010 Review Conferences to both States to continue discussions on follow-on measures in order to achieve deeper reductions in their nuclear arsenals, and urging in this regard both States to conclude negotiations on a successor agreement as soon as possible,

Welcoming also the recent reaffirmations of the historic principle that “a nuclear war cannot be won and must never be fought”,

Underlining the importance of multilateralism in relation to nuclear disarmament, while recognizing the value of unilateral, bilateral and regional initiatives and the importance of compliance with the terms of these initiatives,

1. *Reiterates* that each article of the Treaty on the Non-Proliferation of Nuclear Weapons is binding on the States parties at all times and in all circumstances and that all States parties should be held fully accountable with respect to strict compliance with their obligations under the Treaty, and calls upon all States parties to comply fully with all decisions, resolutions and commitments made at the 1995, 2000 and 2010 Review Conferences;

2. *Also reiterates* the deep concern expressed by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and the need for all States at all times to comply with applicable international law, including international humanitarian law;

3. *Acknowledges* the evidence presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, and calls upon Member States, in their relevant decisions and actions, to give due prominence to the humanitarian imperatives that underpin nuclear disarmament and to the urgency of achieving this goal;

4. *Recalls* the reaffirmation of the continued validity of the practical steps agreed to in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹⁰ including the specific reaffirmation of the unequivocal undertaking of the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI of the Treaty, recalls the commitment of the nuclear-weapon States to accelerating concrete progress on the steps leading to nuclear disarmament, and calls upon the nuclear-weapon States to take all steps necessary to accelerate the fulfilment of their commitments;

5. *Calls upon* the nuclear-weapon States to fulfil their commitment to undertaking further efforts to reduce and ultimately eliminate all types of nuclear weapons, deployed and non-deployed, including through unilateral, bilateral, regional and multilateral measures;

6. *Urges* all States possessing nuclear weapons to decrease the operational readiness of nuclear-weapon systems in a verifiable and

transparent manner with a view to ensuring that all nuclear weapons are removed from high alert status;

7. *Encourages* the nuclear-weapon States to make concrete reductions in the role and significance of nuclear weapons in all military and security concepts, doctrines and policies, pending their total elimination;

8. *Encourages* all States that are part of regional alliances that include nuclear-weapon States to diminish the role of nuclear weapons in their collective security doctrines, pending their total elimination;

9. *Underlines* the recognition by States parties to the Treaty on the Non-Proliferation of Nuclear Weapons of the legitimate interest of non-nuclear-weapon States in the constraining by the nuclear-weapon States of the development and qualitative improvement of nuclear weapons and their ending the development of advanced new types of nuclear weapons, and calls upon the nuclear-weapon States to take steps in this regard;

10. *Notes with concern* recent policy statements by nuclear-weapon States relating to the modernization of their nuclear weapon programmes, which undermine their commitments to nuclear disarmament and increase the risk of the use of nuclear weapons and the potential for a new arms race;

11. *Encourages* further steps by all nuclear-weapon States, in accordance with the previous obligations and commitments on nuclear disarmament, to ensure the irreversible removal of all fissile material designated by each nuclear-weapon State as no longer required for military purposes, and calls upon all States to support, within the context of the International Atomic Energy Agency, the development of appropriate nuclear disarmament verification capabilities and legally binding verification arrangements, thereby ensuring that such material remains permanently outside military programmes in a verifiable manner;

12. *Calls upon* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to work towards the full implementation of the resolution on the Middle East adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹¹ which is inextricably linked to the indefinite extension of the Treaty, and expresses disappointment and deep concern at the lack of a substantive outcome of the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, including on the process to establish a Middle East zone free of nuclear weapons and all other weapons of mass destruction as contained in the 1995 resolution on the Middle East, which remains valid until fully implemented;

¹¹ See 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

13. *Urges* the co-sponsors of the 1995 resolution on the Middle East to exert their utmost efforts with a view to ensuring the early establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction as contained in the 1995 resolution on the Middle East, including through support for the convening of the conference on the establishment of such a zone;

14. *Stresses* the fundamental role of the Treaty on the Non-Proliferation of Nuclear Weapons in achieving nuclear disarmament and nuclear non-proliferation, and looks forward to the Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons once it has been rescheduled;

15. *Calls upon* all States parties to spare no effort to achieve the universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and in this regard urges India, Israel and Pakistan to accede to the Treaty as non-nuclear-weapon States promptly and without conditions, and to place all their nuclear facilities under International Atomic Energy Agency safeguards;

16. *Urges* the Democratic People's Republic of Korea to fulfil its commitments, to abandon all nuclear weapons and existing nuclear programmes, to return, at an early date, to the Treaty on the Non-Proliferation of Nuclear Weapons and to adhere to its International Atomic Energy Agency safeguards agreement,¹² with a view to achieving the denuclearization of the Korean Peninsula in a peaceful, complete, verifiable and irreversible manner, welcomes diplomatic efforts, including through the holding of summits with all parties involved in the process, and encourages a continued dialogue to this end;

17. *Urges* all States to work together to overcome obstacles within the international disarmament machinery that are inhibiting efforts to advance the cause of nuclear disarmament in a multilateral context, and once again urges the Conference on Disarmament to commence immediately substantive work that advances the agenda of nuclear disarmament, particularly through multilateral negotiations;

18. *Urges* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to fully implement without delay their obligations and commitments under the Treaty and as agreed to at the 1995, 2000 and 2010 Review Conferences;

19. *Also urges* all State parties to the Treaty on the Non-Proliferation of Nuclear Weapons to move forward with urgency in implementing their article VI obligations in order to ensure the good standing of the Treaty and its review process;

20. *Urges* the nuclear-weapon States to implement their nuclear disarmament obligations and commitments, both qualitative and quantitative,

in a manner that enables all States parties to regularly monitor progress, including through a standard detailed reporting format, thereby enhancing confidence and trust not only among the nuclear-weapon States but also between the nuclear-weapon States and the non-nuclear-weapon States and contributing to nuclear disarmament;

21. *Also urges* the nuclear-weapon States to include in their reports to be submitted during the 2020 review cycle of the Treaty on the Non-Proliferation of Nuclear Weapons concrete and detailed information concerning the implementation of their obligations and commitments on nuclear disarmament;

22. *Encourages* States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to improve the measurability of the implementation of nuclear disarmament obligations and commitments, including through tools such as a set of benchmarks, timelines and/or similar criteria, in order to ensure and facilitate the objective evaluation of progress;¹³

23. *Urges* Member States to pursue multilateral negotiations without delay in good faith on effective measures for the achievement and maintenance of a nuclear-weapon-free world, in keeping with the spirit and purpose of General Assembly resolution 1 (I) and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons;

24. *Calls upon* Member States to continue to support efforts to identify, elaborate, negotiate and implement further effective legally binding measures for nuclear disarmament, and welcomes in this regard the entry into force on 22 January 2021 of the Treaty on the Prohibition of Nuclear Weapons;

26. *Calls upon* all Member States to reflect on the vast amount of resources dedicated to the maintenance, development and modernization of nuclear arsenals and to consider whether these resources could be better utilized in pursuit of a better future as envisaged in the Sustainable Development Goals;

27. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “General and complete disarmament”, the sub-item entitled “Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments” and to review the implementation of the present resolution at that session.

76/51 Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices

Text

The General Assembly,

Recalling its resolutions 48/75 L of 16 December 1993, 53/77 I of 4 December 1998, 55/33 Y of 20 November 2000, 56/24 J of 29 November 2001, 57/80 of 22 November 2002, 58/57 of 8 December 2003, 59/81 of 3 December 2004, 64/29 of 2 December 2009, 65/65 of 8 December 2010, 66/44 of 2 December 2011 and 67/53 of 3 December 2012, its decisions 68/518 of 5 December 2013 and 69/516 of 2 December 2014, its resolutions 70/39 of 7 December 2015 and 71/259 of 23 December 2016, its decision 72/513 of 4 December 2017, its resolution 73/65 of 5 December 2018 and its decisions 74/509 of 12 December 2019 and 75/515 of 7 December 2020, on the subject of a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices,

Mindful of the continuing importance and relevance of the Conference on Disarmament, and recalling the past achievements of that body in successfully negotiating non-proliferation and disarmament agreements,

Expressing concern at the years of stalemate in the Conference on Disarmament, regretting that negotiations have not been pursued on this issue, and looking forward to the Conference again fulfilling its mandate as the world's single multilateral disarmament negotiating forum,

Convinced that a non-discriminatory, multilateral and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices would represent a significant practical contribution to nuclear disarmament and non-proliferation efforts,

Recognizing the essential role of fissile material in the manufacture of nuclear weapons or other nuclear explosive devices and the long-standing efforts of the international community to negotiate a treaty that would ban its production for such purposes,

Recognizing also that a future treaty should not prohibit the production of fissile material for non-proscribed military purposes or civilian use, consistent with the obligations of States parties, or interfere in any other way with a State's right to peaceful uses of nuclear energy,

Recalling action 15 of the conclusions and recommendations for follow-on actions agreed by consensus at the 2010 Review Conference of

the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons¹ that, inter alia, the Conference on Disarmament should, within the context of an agreed, comprehensive and balanced programme of work, immediately begin negotiation of a treaty banning the production of fissile material for use in nuclear weapons or other nuclear explosive devices in accordance with the report of the Special Coordinator of 1995 (CD/1299) and the mandate contained therein,

Reaffirming also that the Treaty on the Non-Proliferation of Nuclear Weapons¹ is the cornerstone of the international nuclear non-proliferation regime and an essential foundation for the pursuit of nuclear disarmament, nuclear non-proliferation and the peaceful uses of nuclear energy, which are mutually reinforcing, and reaffirming its determination to further enhance the universality of the Treaty,

Noting the postponement of the tenth Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, underscoring the importance of its successful outcome, commemorating that the year 2020 was the fiftieth anniversary of the entry into force of the Treaty and recalling that it has been 76 years since the use of nuclear weapons in Hiroshima and Nagasaki, stressing that since that time no nuclear weapons have been used,

Emphasizing the necessity for all States parties to comply with all of their obligations regarding nuclear disarmament and non-proliferation under the Treaty on the Non-Proliferation of Nuclear Weapons, and reaffirming the importance of implementing commitments contained in the Final Documents of the 1995² Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons and of the 2000³ and 2010⁴ Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Bearing in mind that various approaches exist towards the realization of a world without nuclear weapons and that confidence-building among all States is essential to this end,

Recalling also the report of the Secretary-General of 15 October 1993 to the General Assembly at its forty-eighth session, the annex to which contains the study by governmental experts on the application of confidence-building measures in outer space,¹

Reaffirming the right of all countries to explore and use outer space in accordance with international law,

Reaffirming also that preventing an arms race in outer space is in the interest of maintaining international peace and security and is an essential condition for the promotion and strengthening of international cooperation in the exploration and use of outer space for peaceful purposes,

Recalling, in this context, its resolutions [45/55](#) B of 4 December 1990 and [48/74](#) B of 16 December 1993, in which, inter alia, it recognized the need for increased transparency and confirmed the importance of confidence-building measures as a means of reinforcing the objective of preventing an arms race in outer space,

Noting the constructive debates that the Conference on Disarmament has held on this subject and the views expressed by Member States,

Recalling the introduction by China and the Russian Federation at the Conference on Disarmament of the draft treaty on prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects,² and the submission of its updated version³ in 2014,

¹ [A/48/305](#) and [A/48/305/Corr.1](#).

² See [CD/1839](#).

³ See [CD/1985](#).

Noting that, since 2004, several States⁴ have introduced a policy of not being the first State to place weapons in outer space,

Expressing regret that, owing to the coronavirus disease (COVID-19) pandemic and unresolved organizational problems within the Disarmament Commission, its working group tasked with preparing recommendations relating to the practical implementation of transparency and confidence-building measures in outer space activities with the goal of preventing an arms race in outer space was not in a position to conduct its work, and stressing the importance of resuming its deliberations,

Recognizing that the work within the Committee on the Peaceful Uses of Outer Space, its Scientific and Technical Subcommittee and its Legal Subcommittee, including the promotion of the long-term sustainability of outer space activities, has a fundamental role to play in enhancing transparency and confidence-building among States and in ensuring that outer space is maintained for peaceful purposes,

Noting the contribution of Member States that have submitted to the Secretary-General concrete proposals on international outer space transparency and confidence-building measures pursuant to paragraph 1 of resolution 61/75, paragraph 2 of resolution 62/43, paragraph 2 of resolution 63/68 and paragraph 2 of resolution 64/49,

Recalling the work done in 2012 and 2013 by the Group of Governmental Experts on Transparency and Confidence-building Measures in Outer Space Activities, which was convened by the Secretary-General, on the basis of equitable geographical distribution, to conduct a study on outer space transparency and confidence-building measures,

Recalling also the consideration of the report of the Group of Governmental Experts,⁵ as well as views on the modalities of making practical use of the recommendations contained therein, as set out in the report of the Committee on the Peaceful Uses of Outer Space on its fifty-eighth session, held in 2015,⁶ at which it found that the Committee had a fundamental role to play in enhancing transparency and confidence-building among States, as well as in ensuring that outer space is maintained for peaceful purposes,

Noting that, in its report, the Group of Governmental Experts had recognized the value of the work of the Committee on the Peaceful Uses of Outer Space in developing a set of voluntary, non-legally binding guidelines

for the long-term sustainability of outer space activities, some of which could be considered as potential transparency and confidence-building measures, while others could enhance the safety of outer space activities and thereby provide the technical basis for the further implementation of additional transparency and confidence-building measures,

Welcoming the adoption in 2019 by the Committee on the Peaceful Uses of Outer Space at its sixty-second session of the preamble and 21 Guidelines for the Long-term Sustainability of Outer Space Activities, as contained in annex II to the report of the Committee,⁷ the implementation of which may have a positive effect on international peace and security, as well as the continuation of efforts both to identify and study challenges and to consider possible new guidelines for the long-term sustainability of outer space activities,

Recalling the special report by the Inter-Agency Meeting on Outer Space Activities (UN-Space) on the implementation of the report of the Group of Governmental Experts, and the recommendations contained therein, as submitted to the Committee on the Peaceful Uses of Outer Space at its fifty-ninth session, in 2016,⁸

Agenda item 101 (a)

76/56 Convention on the Prohibition of the Use of Nuclear Weapons

Text

The General Assembly,

Convinced that the use of nuclear weapons poses the most serious threat to the survival of humankind,

Bearing in mind the advisory opinion of the International Court of Justice of 8 July 1996 on the legality of the threat or use of nuclear weapons,¹

Convinced that a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons would contribute to the elimination of the nuclear threat and to the climate for negotiations leading to the ultimate elimination of nuclear weapons, thereby strengthening international peace and security,

Conscious that some steps have been taken by the Russian Federation and the United States of America towards a reduction of their nuclear weapons and that further steps – in all relevant formats – on nuclear arms control and disarmament can contribute to the improvement of the international climate and the goal of the complete elimination of nuclear weapons,

Recalling that, in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly,² it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and which would preclude the use or threat of use of nuclear weapons,

Reaffirming that any use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions [1653 \(XVI\)](#) of 24 November 1961, [33/71 B](#) of 14 December 1978, [34/83 G](#) of 11 December 1979, [35/152 D](#) of 12 December 1980 and [36/92 I](#) of 9 December 1981,

Recognizing that a legally binding prohibition of the use of nuclear weapons is not contrary to but in fact contributes to international efforts for the achievement and maintenance of a world free of nuclear weapons,

Stressing that an international convention on the prohibition of the use of nuclear weapons would be an important step in a phased programme towards the complete elimination of nuclear weapons, with a specified framework of time,

¹ [A/51/218](#), annex.

² Resolution [S-10/2](#).

Noting with regret that the Conference on Disarmament, during its 2021 session, was unable to undertake negotiations on this subject as called for in General Assembly resolution [75/75](#) of 7 December 2020,

1. *Reiterates its request* to the Conference on Disarmament to commence negotiations in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances;

2. *Requests* the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

76/62 Report of the Conference on Disarmament

Text

The General Assembly,

Having considered the report of the Conference on Disarmament,¹

Recalling its resolution [75/83](#) of 7 December 2020,

Convinced that the Conference on Disarmament, as the single multilateral disarmament negotiating forum of the international community, has the primary role in substantive negotiations on priority questions of disarmament,

Recognizing the addresses of the Ministers for Foreign Affairs and other high-level officials in the Conference on Disarmament, and referring to their various expressions of support for and concern about the endeavours of the Conference and calls for the Conference to commence negotiations without delay to advance disarmament goals through the adoption of a balanced and comprehensive programme of work,

Recognizing also the need to conduct multilateral negotiations with the aim of reaching agreement on concrete issues, and emphasizing the importance of effective multilateralism in the context of the changing international climate,

Noting with renewed concern that, despite the intensive efforts by States members and Presidents of the Conference on Disarmament at its 2021 session to reach consensus on a programme of work on the basis of relevant proposals and suggestions, the Conference did not succeed in commencing its substantive work by means of negotiations or agree to a programme of work,

Recalling, in this respect, that the Conference on Disarmament has a number of priority issues for negotiation to achieve disarmament goals,

Welcoming the overwhelming call for greater flexibility with respect to implementing the substantive work of the Conference on Disarmament on the basis of a balanced and comprehensive programme of work,

Underlining the need for continued cooperation among the States members of the Conference on Disarmament as well as among the successive Presidents of the Conference,

Noting with appreciation the contributions made at the 2021 session to promote substantive discussions on issues on the agenda,

¹ *Official Records of the General Assembly, Seventy-sixth Session, Supplement No. 27 (A/76/27).*

Acknowledging the United Nations Institute for Disarmament Research, as a stand-alone, autonomous institution, and the contribution that its research makes,

Recognizing the importance of engagement between civil society and the Conference on Disarmament according to decisions taken by the Conference,

1. *Reaffirms* the role of the Conference on Disarmament as the single multilateral disarmament negotiating forum of the international community;

2. *Appreciates* the strong support expressed for the Conference on Disarmament at its 2021 session by Ministers for Foreign Affairs and other high-level officials, while also acknowledging their concern about its ongoing impasse, and takes into account their calls for greater flexibility with respect to commencing the substantive work of the Conference without further delay;

3. *Calls upon* the Conference on Disarmament to further intensify consultations and to explore possibilities for overcoming its ongoing deadlock of two decades by adopting and implementing a balanced and comprehensive programme of work at the earliest possible date during its 2022 session, bearing in mind the decision on the programme of work adopted by the Conference on 29 May 2009,² as well as other relevant present, past and future proposals;

4. *Encourages* the current President and the incoming President of the Conference on Disarmament to conduct consultations during the intersessional period and, if possible, to make recommendations, taking into account all relevant proposals, past, present and future, including those submitted as documents of the Conference, views presented and discussions held, and to endeavour to keep the membership of the Conference informed, as appropriate, of their consultations;

5. *Requests* the current President and successive Presidents of the Conference on Disarmament to cooperate with the States members of the Conference in the effort to guide the Conference to the early commencement of its substantive work, including negotiations, at its 2022 session;

7. *Requests* the Secretary-General to continue to ensure and to strengthen, if needed, the provision to the Conference on Disarmament of all necessary administrative, substantive and conference support services;

76/63 The risk of nuclear proliferation in the Middle East

Text

The General Assembly,

Bearing in mind its relevant resolutions, the latest of which is resolution [75/84](#) of 7 December 2020,

Taking note of the relevant resolutions adopted by the General Conference of the International Atomic Energy Agency, the latest of which is resolution GC(65)/RES/14, adopted on 23 September 2021,

Cognizant that the proliferation of nuclear weapons in the region of the Middle East would pose a serious threat to international peace and security,

Mindful of the immediate need for placing all nuclear facilities in the region of the Middle East under full-scope safeguards of the Agency,

Recalling the decision on principles and objectives for nuclear non-proliferation and disarmament adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,¹ in which the Conference urged universal adherence to the Treaty on the Non-Proliferation of Nuclear Weapons² as an urgent priority and called upon all States not yet parties to the Treaty to accede to it at the earliest date, particularly those States that operate unsafeguarded nuclear facilities,

Recognizing with satisfaction that, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ the Conference undertook to make determined efforts towards the achievement of the goal of universality of the Treaty, called upon those remaining States not parties to the Treaty to accede to it, thereby accepting an international legally binding commitment not to acquire nuclear weapons or nuclear explosive devices and to accept Agency safeguards on all their nuclear activities, and underlined the necessity of universal adherence to the Treaty and of strict compliance by all parties with their obligations under the Treaty,

Recalling the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on 11 May 1995, in

¹ See 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, *Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

² United Nations, *Treaty Series*, vol. 729, No. 10485.

³ 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, *Final Document*, vols. I–III (NPT/CONF.2000/28 (Parts I and II), NPT/CONF.2000/28 (Part III) and NPT/CONF.2000/28 (Part IV)).

which the Conference noted with concern the continued existence in the Middle East of unsafeguarded nuclear facilities, reaffirmed the importance of the early realization of universal adherence to the Treaty, and called upon all States in the Middle East that had not yet done so, without exception, to accede to the Treaty as soon as possible and to place all their nuclear facilities under full-scope Agency safeguards,

Acknowledging that, in the Final Document of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ the Conference emphasized the importance of a process leading to full implementation of the 1995 resolution on the Middle East and decided, inter alia, that the Secretary-General of the United Nations and the co-sponsors of the 1995 resolution, in consultation with the States of the region, would convene a conference in 2012, to be attended by all States of the Middle East, on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction, on the basis of arrangements freely arrived at by the States of the region, and with the full support and engagement of the nuclear-weapon States,

Expressing regret and concern that the conference was not convened in 2012 as mandated and that little progress has been achieved towards the implementation of the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty,

Noting, in this context, the relevant resolutions of the League of Arab States aiming at the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction,

Taking note with appreciation of the report of the Secretary-General,⁵

Recalling that Israel remains the only State in the Middle East that has not yet become a party to the Treaty,

Concerned about the threats posed by the proliferation of nuclear weapons to the security and stability of the Middle East region,

Stressing the importance of taking confidence-building measures, in particular the establishment of a nuclear-weapon-free zone in the Middle East, in order to enhance peace and security in the region and to consolidate the global Non-Proliferation regime,

Emphasizing the need for all parties directly concerned to seriously consider taking the practical and urgent steps required for the implementation of the proposal to establish a nuclear-weapon-free zone in the region of the Middle East in accordance with the relevant resolutions of the General

⁴ 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, vols. I–III (NPT/CONF.2010/50 (Vol. I), NPT/CONF.2010/50 (Vol. II) and NPT/CONF.2010/50 (Vol. III)).

⁵ A/76/190 (Part II).

Assembly and, as a means of promoting this objective, inviting the countries concerned to adhere to the Treaty and, pending the establishment of the zone, to agree to place all their nuclear activities under Agency safeguards,

Noting that 185 States have signed the Comprehensive Nuclear-Test-Ban Treaty,⁶ including a number of States in the region,

1. *Recalls* the conclusions on the Middle East of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁷ and calls for the speedy and full implementation of the commitments contained therein;

2. *Stresses* that the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty⁸ is an essential element of the outcome of the 1995 Conference and of the basis on which the Treaty was indefinitely extended without a vote in 1995;

3. *Reiterates* that the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty remains valid until its goals and objectives are achieved;

4. *Calls for* immediate steps towards the full implementation of that resolution;

5. *Reaffirms* the importance of Israel's accession to the Treaty on the Non-Proliferation of Nuclear Weapons and placement of all its nuclear facilities under comprehensive International Atomic Energy Agency safeguards, in realizing the goal of universal adherence to the Treaty in the Middle East;

6. *Calls upon* that State to accede to the Treaty without further delay, not to develop, produce, test or otherwise acquire nuclear weapons, to renounce possession of nuclear weapons and to place all its unsafeguarded nuclear facilities under full-scope Agency safeguards as an important confidence-building measure among all States of the region and as a step towards enhancing peace and security;

7. *Requests* the Secretary-General to report to the General Assembly at its seventy-seventh session on the implementation of the present resolution;

8. *Decides* to include in the provisional agenda of its seventy-seventh session the item entitled "The risk of nuclear proliferation in the Middle East".

⁶ See resolution [50/245](#) and [A/50/1027](#).

⁷ *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I (NPT/CONF.2010/50 (Vol. I)), part I, *Conclusions and recommendations for follow-on actions*, sect. IV.

⁸ See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document, Part I* (NPT/CONF.1995/32 (Part I) and NPT/CONF.1995/32 (Part I)/Corr.2), annex.

76/67 Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction

Text

The General Assembly,

Recalling its previous resolutions relating to the complete and effective prohibition of bacteriological (biological) and toxin weapons and on their destruction,

Noting that there has been no increase in the number of ratifications of and accessions to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction,¹ and stressing at the same time that there is a continuing need to achieve its universalization,

Reaffirming its call upon all signatory States that have not yet ratified the Convention to do so without delay, and calling upon those States that have not signed the Convention to become parties thereto at the earliest possible date, thus contributing to the achievement of universal adherence to the Convention, which will facilitate its success,

Bearing in mind its call upon all States parties to the Convention to participate in the implementation of the recommendations of the review conferences of the parties to the Convention, including the exchange of information and data agreed to in the Final Declaration of the Third Review Conference of the Parties to the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction, later amended by the Final Declaration of the Seventh Review Conference, and to provide such information and data in conformity with the standardized procedure to the Implementation Support Unit within the Office for Disarmament Affairs of the Secretariat on an annual basis and no later than 15 April,

Welcoming the reaffirmation made in the Final Declarations of the Fourth, Sixth, Seventh and Eighth Review Conferences that under all circumstances the use of bacteriological (biological) and toxin weapons and their development, production and stockpiling are effectively prohibited under article I of the Convention,

Recognizing the importance of ongoing efforts by States parties to enhance international cooperation, assistance and the fullest possible

exchange of equipment, materials and scientific and technological information for the use of bacteriological (biological) agents and toxins for peaceful purposes, recognizing also that there still remain challenges to be overcome in order to enhance international cooperation, and recognizing further the value of building capacity through international cooperation as well as strengthening coordination and coherence of efforts of all relevant international organizations, in line with the Final Document of the Eighth Review Conference,²

Reaffirming the importance of national measures, in accordance with constitutional processes, in strengthening the implementation of the Convention by States parties, in line with the Final Document of the Eighth Review Conference,

Reaffirming also the importance of the review of developments in the field of science and technology related to the Convention,

Encouraging the equitable participation of women and men in the framework of the Convention,

Recalling previous intersessional processes carried out under the Convention,

Noting, in the decisions and recommendations of the Final Document, that the Eighth Review Conference decided that States parties would hold annual meetings and that the first such meeting would start on 4 December 2017, have a duration of up to five days and seek to make progress on issues of substance and process for the period before the next Review Conference, with a view to reaching consensus on an intersessional process,

Recalling the decision of the Eighth Review Conference that the Ninth Review Conference shall be held in Geneva not later than 2021,

1. *Notes* the consensus outcome of and the decisions on all provisions of the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction reached at the Eighth Review Conference of the Parties to the Convention, and calls upon States parties to the Convention to participate and actively engage in their continued implementation;

2. *Notes with appreciation* that the meeting of States parties to the Convention, held in Geneva from 4 to 8 December 2017, was able to reach consensus on reaffirming previous intersessional programmes carried out during the period 2003–2015, on retaining the previous structure of annual meetings of States parties preceded by annual meetings of experts, and on reaffirming that the purpose of the intersessional programme was to discuss, and promote common understanding and effective action on, those issues

identified for inclusion in the intersessional programme, and that the work of the intersessional period would be guided by the aim of strengthening the implementation of all articles of the Convention in order to better respond to current challenges;³

3. *Also notes with appreciation* that, in the light of the need to balance an ambition to improve the intersessional programme within the financial and human resources constraints facing States parties, 12 days were allocated to the intersessional programme each year from 2018 to 2020, that the meetings of experts for eight days would be held back to back and at least three months before the annual meetings of States parties of four days each, and that the meetings of experts would be open-ended and would consider the following topics: cooperation and assistance, with a particular focus on strengthening cooperation and assistance under article X (two days); review of developments in the field of science and technology related to the Convention (two days); strengthening national implementation (one day); assistance, response and preparedness (two days); and institutional strengthening of the Convention (one day);

4. *Appreciates* the information and data on confidence-building measures provided by States parties to the Convention to date, and calls upon all States parties to participate in the exchange of information and data on confidence-building measures called for in the relevant decisions of the review conferences, and invites them to make use of the new platform for electronic submission, on a voluntary basis, without prejudice to their choice of methods for submission;

5. *Notes* the decision of the Eighth Review Conference to continue and improve the database established by the Seventh Review Conference to facilitate requests for and offers of exchange of assistance and cooperation, and urges States parties to submit to the Implementation Support Unit, on a voluntary basis, requests for and offers of cooperation and assistance, including in terms of equipment, materials and scientific and technological information regarding the use of biological and toxin agents for peaceful purposes;

6. *Encourages* States parties to provide, at least biannually, appropriate information on their implementation of article X of the Convention and to collaborate to offer assistance or training, upon request, as contained in specific proposals, in support of the legislative and other implementation measures of States parties needed to ensure their compliance with the Convention;

7. *Notes* the decision of the Eighth Review Conference to renew the sponsorship programme established by the Seventh Review Conference in order to support and increase the participation of developing States parties in

³ See [BWC/MSP/2017/6](#).

the annual meetings, welcomes the continued willingness among States parties to provide voluntary contributions, and calls upon States parties in a position to do so to offer voluntary contributions for the programme;

8. *Also notes* the decision of the Eighth Review Conference to renew the mandate of the Implementation Support Unit agreed to at the Seventh Review Conference, mutatis mutandis, for the period from 2017 to 2021, and notes with appreciation the work of the Unit;

9. *Notes with appreciation* the events organized by some States parties, regional organizations and the Office for Disarmament Affairs of the Secretariat for exchanges of views on the implementation of the Convention, and encourages States parties to continue to participate in such informal exchanges and discussions;

10. *Requests* the Secretary-General to continue to render the necessary assistance to the depositary Governments of the Convention and to continue to provide such services as may be required for the conduct and the implementation of the decisions and recommendations of the review conferences;

11. *Recalls* that the meeting of States parties in Geneva in December 2018 agreed that the financial difficulties of the Convention stemmed from three principal sources, namely the non-payment of contributions by some States parties, delays in the receipt of contributions from other States parties and the financial requirements of the United Nations with respect to activities not funded from its regular budget, and calls upon States parties to consider ways of addressing these serious issues as a matter of urgency;

12. *Notes* that the meeting of States parties in Geneva in December 2019 welcomed the improvement of the financial situation for that year, following the measures endorsed by the meeting of States parties in 2018, including the establishment of the working capital fund, and stressed the need to continue monitoring the financial situation of the Convention and requested the Chair of the 2020 meeting of States parties, in close consultation with the States parties, the Implementation Support Unit, the Office for Disarmament Affairs and the United Nations Office at Geneva, to report on the overall financial situation of the Convention, implementation of the measures endorsed in 2018, and possible further measures, in a transparent way and taking into account outstanding credits for those States parties that paid their contribution in full, to bring about timely payment as required, for consideration by the 2020 meeting of States parties;⁴

13. *Encourages* the meeting of States parties in 2021 to consider and to agree upon arrangements for the Ninth Review Conference, and its

Preparatory Committee, taking into account section VIII of the report of the 2019 meeting of States parties;⁵

14. *Decides* to include in the provisional agenda of its seventy-seventh session the item entitled “Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction”.

Agenda item 98 (c)

76/230 Further practical measures for the prevention of an arms race in outer space

Text

The General Assembly,

Recalling its resolutions 71/31 and 71/32 of 5 December 2016, 71/90 of 6 December 2016, 72/250 of 24 December 2017, 73/6 of 26 October 2018, 73/91 of 7 December 2018 and 74/34 of 12 December 2019 and its decisions 73/512 of 5 December 2018 and 75/514 of 7 December 2020, as well as its other resolutions and decisions on this subject,

Expressing grave alarm over the threat of an arms race in outer space, which would impair the prospects for limiting and reducing armaments in general and erect insurmountable barriers to international cooperation in the peaceful exploration of outer space,

Recognizing the catastrophic consequences of an arms race in outer space, which should be used exclusively for peaceful and creative purposes, or any military conflicts in outer space and that the prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the importance of article IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Bearing in mind that all States, in particular those with major space capabilities, should contribute actively to the prevention of an arms race in outer space with a view to promoting and strengthening international cooperation in the exploration and use of outer space for peaceful purposes, with the objective of shaping a community of shared future for humankind,

Recognizing that, while the existing international treaties related to outer space and the legal regime provided for therein play a positive role in regulating outer space activities, they are unable to fully prevent an arms race in outer space, the placement of weapons in outer space and the threat or use of force in outer space, from space against Earth and from Earth against objects in outer space, and preserve outer space for peaceful purposes, and that there is a need to consolidate and reinforce this regime,

Expressing serious concern over the plans declared by certain States that include placement of weapons, in particular strike combat systems, in outer space, the threat or use of force in outer space, from space against Earth and from Earth against objects in outer space and the use of outer space for combat operations,

¹ United Nations, *Treaty Series*, vol. 610, No. 8843.

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space and preserve outer space for peaceful purposes,

Welcoming, in this regard, the draft treaty on the prevention of the placement of weapons in outer space and of the threat or use of force against outer space objects, introduced by China and the Russian Federation at the Conference on Disarmament in 2008,² and the submission of its updated version in 2014,³

Stressing the importance of the political statements made by a number of States⁴ that they would not be the first to place weapons in outer space,

Recognizing the primary role and responsibility of the Conference on Disarmament in the negotiation of a multilateral agreement or agreements on the prevention of an arms race in outer space,

Taking into account the work done by the Group of Governmental Experts on Further Practical Measures for the Prevention of an Arms Race in Outer Space in 2018 and 2019 in the search for further practical measures for the prevention of an arms race in outer space, in particular in the course of future negotiations at the Conference on Disarmament on the international legally binding instrument in this regard,

1. *Proclaims* it a historic responsibility of all States to ensure that the exploration of outer space is carried out exclusively for peaceful purposes for the benefit of mankind;

2. *Declares* that the exclusion of outer space from the sphere of the arms race and the preservation of outer space for peaceful purposes should become a mandatory norm of State policy and a generally recognized international obligation;

3. *Calls upon* all States, and above all those with major space capabilities, to this end:

(a) To take urgent measures to prevent for all time the placement of weapons in outer space and the threat or use of force in outer space, from space against Earth and from Earth against objects in outer space;

(b) To seek through negotiations the early elaboration of appropriate reliably verifiable legally binding multilateral agreements;

4. *Expresses its deep regret* over the years of stalemate in the work of the Conference on Disarmament, and looks forward to the Conference again fulfilling its mandate as the single multilateral disarmament negotiating forum;

5. *Urges* the Conference on Disarmament to agree on and implement at its earliest opportunity a balanced and comprehensive programme of work that includes the immediate commencement of negotiations on an international legally binding instrument on the prevention of an arms race in outer space, including on the prevention of the placement of weapons in outer space and of the threat or use of force in outer space, from space against Earth and from Earth against objects in outer space;

6. *Acknowledges* that the guaranteed prevention of an arms race in outer space will provide an opportunity for the peaceful exploration of outer space and its use in solving acute major problems relating to economic, social and cultural development facing mankind today, as well as in consolidating the efforts of States of the world in this domain;

7. *Requests* the Secretary-General, within existing resources, to seek the views and proposals of Member States on the provision of guarantees for the prevention of an arms race in outer space and preserving outer space for peaceful purposes, and to submit a substantive report, with an annex containing those views, to the General Assembly at its seventy-seventh session, for further discussion by Member States;

8. *Decides* to include in the provisional agenda of its seventy-seventh session, under the item entitled “Prevention of an arms race in outer space”, the sub-item entitled “Further practical measures for the prevention of an arms race in outer space”.

76/231 Reducing space threats through norms, rules and principles of responsible behaviours

Text

The General Assembly,

Recalling its resolutions [68/50](#) of 5 December 2013 and [75/35](#) of 7 December 2020,

Recalling also its resolution [75/36](#) of 7 December 2020, in which it requested the Secretary-General to seek the views of Member States on the further development and implementation of norms, rules and principles of responsible behaviours and on the reduction of the risks of misunderstanding and miscalculations with respect to outer space, and to submit a substantive report, with an annex containing these views, to the General Assembly at its seventy-sixth session,

Reaffirming the applicability of international law, including the Charter of the United Nations, to activities in outer space and the right of all States to explore and use outer space without discrimination of any kind, on a basis of equality and in accordance with such law, and emphasizing the importance of full compliance with such law,

Reaffirming also the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹ and the obligations for States parties to the Treaty to explore and use outer space for the benefit and in the interests of all countries, and to be guided by the principle of cooperation and mutual assistance,

Welcoming the ongoing work by the Committee on the Peaceful Uses of Outer Space on the implementation of the 21 Guidelines for the Long-term Sustainability of Outer Space Activities,² which may have a positive effect on international peace and security,

Emphasizing the need to maintain outer space as a peaceful, safe, stable, secure and sustainable environment for the benefit of all and the significant contribution of outer space activities to social, economic, scientific and technological development, as well as to international peace and security,

Urging all States, when developing, planning and executing their space activities, to remain committed to the peaceful exploration and use of outer space and to refrain from conducting activities contrary to their obligations

² *Official Records of the General Assembly, Seventy-fourth Session, Supplement No. 20 (A/74/20)*, annex II.

under international law, including those that could threaten the ability of all States to freely use and explore outer space, now and in the future,

Stressing that the creation of long-lived orbital debris arising from the deliberate destruction of space systems increases the risk of in-orbit collisions and the potential for misunderstanding and miscalculations that could lead to conflict,

Seriously concerned about the possibility of an arms race in outer space, and reaffirming that the prevention of an arms race in outer space would avert a grave danger for international peace and security, as well as being an essential condition for the promotion and strengthening of international cooperation in the exploration and use of outer space for peaceful purposes,

Recalling paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,³ in which it is stated that, in order to prevent an arms race in outer space, further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,

Convinced that possible solutions to outer space security can involve a combination of legally binding obligations and political commitments, and that work in both of these areas can be further pursued in a progressive, sustained and complementary manner, without undermining existing legal obligations,

Recalling the primary role of the Conference on Disarmament on questions relating to the prevention of an arms race in outer space in all its aspects, including the weaponization of outer space and threats from capabilities on Earth, and the relevant responsibilities of the First Committee of the General Assembly and the Disarmament Commission,

Noting the rapid advances of technologies in space systems, the use of which could have positive or negative effects on international security, and encouraging further discussion among States of the impact of these developments,

Recognizing that efforts to prevent an arms race and to prevent conflict from beginning in or extending into outer space must include consideration of the use of all potential technologies and means, whether on Earth or in outer space,

Stressing that uses of these technologies and means for purposes inconsistent with the objectives of maintaining international stability and security, including against signals for operators and users and the terrestrial infrastructure supporting space systems, can lead to the perception of threats

³ Resolution [S-10/2](#).

on Earth as well as in outer space and can have destabilizing effects on peace and security, and that such threats already exist in outer space and on Earth,

Recognizing the need for States to seek to avoid and mitigate the potential impact on peace and security arising from accidents, miscommunication or a lack of transparency, which could lead to miscalculations and the escalation of tensions and contribute to an arms race,

Reiterating the need for all States to work together to reduce threats to space systems through the further development and implementation of norms, rules and principles of responsible behaviours with the aim of maintaining a peaceful, safe, stable, secure and sustainable outer space environment, which might, as appropriate and without prejudice, contribute to further consideration of legally binding instruments on the prevention of an arms race in outer space,

Reaffirming that verification is one of the essential components of legally binding arms control instruments, and encouraging further consideration of effective verification regarding space systems,

Recognizing the importance of the full involvement and equal participation of women and men in discussions on reducing space threats through responsible behaviours and the need to assess the possible differentiated impacts of such threats,

1. *Affirms* that all States must conduct their activities in the exploration and use of outer space, including the Moon and other celestial bodies, in conformity with international law, including the Charter of the United Nations, and urges Member States to take this into account when formulating their space policies;

2. *Encourages* those States that have not yet become parties to the international treaties governing the exploration and use of outer space to give consideration to ratifying or acceding to those treaties in accordance with their national law, as well as incorporating them into their national legislation;

3. *Expresses the desire* that all Member States reach a common understanding of how best to act to reduce threats to space systems in order to maintain outer space as a peaceful, safe, stable and sustainable environment, free from an arms race and conflict, for the benefit of all, and consider establishing channels of direct communication, including for the management of perceptions of threat;

4. *Welcomes* the report of the Secretary-General to the General Assembly pursuant to its resolution 75/36,⁴ and his recommendation that Member States study the ideas contained therein and decide on an inclusive

process to take these issues forward at the seventy-sixth session of the General Assembly;

5. *Decides* to convene, beginning in 2022, an open-ended working group:

(a) To take stock of the existing international legal and other normative frameworks concerning threats arising from State behaviours with respect to outer space;

(b) To consider current and future threats by States to space systems, and actions, activities and omissions that could be considered irresponsible;

(c) To make recommendations on possible norms, rules and principles of responsible behaviours relating to threats by States to space systems, including, as appropriate, how they would contribute to the negotiation of legally binding instruments, including on the prevention of an arms race in outer space;

(d) To submit a report to the General Assembly at its seventy-eighth session;

6. *Also decides* that the open-ended working group shall work on the basis of consensus, hold its organizational session in Geneva for two days, and meet in Geneva for two sessions of five days each in both 2022 and 2023, with the participation of intergovernmental organizations and other entities having received a standing invitation to participate as observers in the work of the General Assembly, as well as organizations and bodies of the United Nations, and with the attendance of other international organizations, commercial actors and civil society representatives, in accordance with established practice, and further decides that the Chair may also hold intersessional consultative meetings with interested parties to exchange views on the issues within the mandate of the open-ended working group;

7. *Requests* the Secretary-General to provide all necessary assistance to the open-ended working group and its Chair and to transmit its report to the Conference on Disarmament and the Disarmament Commission;

8. *Continues to invite* States members and observers of the Conference on Disarmament and the Disarmament Commission to inform those bodies of their national space security policies, strategies or doctrines, on a voluntary basis, in accordance with and in support of the mandates of those bodies;

Recognizing the urgency of addressing the security and safety risks emanating from ineffective stockpile management around the world,²

Bearing in mind a through-life management approach to tackle problems related to ammunition in a comprehensive manner, including those related to diversion,

Noting the requirement of the Arms Trade Treaty³ that States parties thereto shall designate competent national authorities in order to have an effective and transparent national control system to regulate the transfer of relevant ammunition and munitions,

Recalling the recommendation contained in paragraph 27 of the report of the Open-ended Working Group to Negotiate an International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons,⁷ namely, to address the issue of small arms and light weapons ammunition in a comprehensive manner as part of a separate process conducted within the framework of the United Nations,

Taking note of the discussions on munitions management practice in the framework of Protocol V⁸ to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,⁹

Noting with satisfaction the work and measures pursued at the regional and subregional levels with regard to the issue of conventional ammunition,

Noting with appreciation the ongoing work of the Ammunition Management Advisory Team to support interested States in the safe and secure management of ammunition through the provision of technical advice and services,

1. *Encourages* all interested States to assess, on a voluntary basis, whether, in conformity with their legitimate security needs, parts of their stockpiles of conventional ammunition should be considered to be in surplus, and recognizes that the security of such stockpiles must be taken into consideration and that appropriate controls with regard to the security and safety of stockpiles of conventional ammunition are indispensable at the national level in order to eliminate the risk of explosion, pollution or diversion;

2. *Appeals* to all interested States to determine the size and nature of their surplus stockpiles of conventional ammunition, whether they represent a security or safety risk, their preferred means of destruction, if appropriate, and whether external assistance is needed to eliminate this risk;

3. *Encourages* States in a position to do so to assist interested States within a bilateral framework or through international or regional organizations, including through activities conducted under the umbrella of the SaferGuard knowledge resource management programme, on a voluntary and transparent basis, in elaborating and implementing programmes to eliminate surplus stockpiles or to improve stockpile management;

4. *Encourages* all Member States to examine the possibility of developing and implementing, within a national, regional or subregional framework, measures to address accordingly the illicit trafficking related to the accumulation of such stockpiles;

5. *Notes with appreciation* initiatives at the international, regional and national levels that shed light on improving the sustainable management of ammunition, including through the implementation of the International Ammunition Technical Guidelines, recognizing the relevance of continued discussions and coordination in this regard;

8. *Encourages* consideration of the integration of ammunition management measures, where relevant, in the mandates of peacekeeping operations, including through the training of personnel of national authorities and peacekeepers, utilizing the International Ammunition Technical Guidelines;

9. *Welcomes* the ongoing work carried out by the SaferGuard programme to operationalize its quick-response mechanism, which allows ammunition experts to be deployed to assist States, upon request, in the management of ammunition stockpiles, and encourages States in a position to do so to provide technical expertise or financial support to the mechanism;

10. *Encourages* States wishing to improve their national ammunition stockpile management capacity, wishing to prevent the growth of conventional ammunition surpluses and wishing to implement wider risk mitigation to contact the SaferGuard programme, as well as potential national donors, regional organizations or other organizations, as appropriate;

11. *Encourages* States, as appropriate, to consider ammunition management as an intrinsic part of their actions for achieving relevant targets of the Sustainable Development Goals related to the reduction of illicit arms flows and the prevention of violence through strengthened national institutions, and to consider, where relevant, developing national, regional and subregional indicators based on this understanding;

12. *Also encourages* States, where relevant, to develop voluntary national action plans on the safe and secure management of conventional ammunition, and acknowledges the utility of information-sharing and the benefit of good practices among States, as appropriate;

13. *Recalls with appreciation* the series of informal consultations convened within the framework of its resolution [72/55](#) throughout 2018 and 2019 that focused on matters of conventional ammunition management within the United Nations system and beyond and that sought to identify urgent issues pertaining to the accumulation of conventional ammunition stockpiles in surplus on which progress can be made;

16. *Encourages* States to consider the recommendations contained in the report of the Group of Governmental Experts established pursuant to resolution [72/55](#), in particular regarding steps to address the safety and security challenges arising from conventional ammunition in a comprehensive manner;

17. *Decides* to establish an open-ended working group to elaborate a set of political commitments as a new global framework that will address existing gaps in through-life ammunition management, including international cooperation and assistance, without prejudice to national legal systems addressing national ammunition ownership, possession and use, and will be part of a comprehensive framework to support safe, secure and sustainable through-life ammunition management at the national, subregional, regional and global levels, building upon and complementing existing frameworks, whereas cooperation at the regional and subregional levels should be considered on a voluntary basis;

18. *Also decides* that the open-ended working group shall take into account the recommendations contained in the report of the Group of Governmental Experts established pursuant to resolution [72/55](#) and the views of all participating States and be informed by the series of informal consultations convened within the framework of its resolution [72/55](#) throughout 2018 and 2019, the informal paper presented by Germany on the informal consultative process and the inputs, both written and oral, received from Member States on the same matter;

Text

The General Assembly,

Recalling the provisions of the Treaty on the Non-Proliferation of Nuclear Weapons,¹ the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction² and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction³ and the provisions of relevant United Nations resolutions,

Reaffirming the need for all Member States to fulfil their obligations in relation to arms control and disarmament and to prevent proliferation, in all its aspects, of all weapons of mass destruction,

Reaffirming also that proliferation of nuclear, chemical and biological weapons, as well as their means of delivery, constitutes a threat to international peace and security,

Reaffirming further support for the multilateral treaties whose aim is to eliminate or prevent the proliferation of nuclear, chemical or biological weapons and the importance for all States parties to these treaties of implementing them fully in order to promote international stability,

Bearing in mind the potential impact that scientific and technological advances can have on global security,

Recognizing the inalienable right of all States to participate in the fullest possible exchange of equipment, materials and scientific and technological information for peaceful purposes, in accordance with relevant international obligations,

Reaffirming that preventing the proliferation of nuclear, chemical and biological weapons should not hamper international cooperation on materials, equipment and technology for peaceful purposes, while the goals of peaceful utilization should not be misused for proliferation purposes,

Bearing in mind the significant role of international cooperation on materials, equipment and technology for peaceful purposes in facilitating the economic and social development of Member States, in particular the development of developing countries,

Acknowledging also the importance of technology as one of the key means of implementation in the pursuit of sustainable development,

Noting with concern that undue restrictions on exports to developing countries of materials, equipment and technology for peaceful purposes persist,

Emphasizing that proliferation concerns are best addressed through multilaterally negotiated, universal, comprehensive and non-discriminatory agreements,

Emphasizing also that non-proliferation control arrangements should be transparent and open to participation by all States and should ensure that no restrictions are imposed on access to materials, equipment and technology for peaceful purposes required by developing countries for their continued sustainable development,
